## INDUSTRIES GROUP SEE ROSY FUTURE

Victoria Well Off Compared to Sister Cities, Reports Chairman Blair

High optimism to-day tinted the views of the members of the Industrial Group of the Chamber of Commerce at the Chamber of Commerce restaurant.

Chairman M. P. Blair received hearty support from Alderman John Harvey, John Blair and E. B. Hall when he said "We in Victoria have no reason to kick at conditions; there are lots of other places where there is more gloom in the outlook. Chicago, Winnipeg and the prairie cities I recently visited all were busy yet all saw the future darkly. Winnipeg was locally the most gloomy place I ever saw in the morning."

"Everywhere they talk taxes; so do we; yet properties in Winnipeg are carrying three and four time the taxes we pay here."

## TO BOOST HOME MARKET

A commodity directory for distribution among the households of Victoria and district is under preparation by the group, and at today's meeting H. J. Penney reported that a questionnaire had been sent out to all manufacturers in order that no local product should be overlooked. When this data is all in hand, the group proposes to call a meeting of the local manufacturers in order to arrange means for financing production of the booklet and means for its distribution.

Considerable discussion took place upon the present status of the inquiry into the proposition of the Coast Range Steel Co. John Wool stating that a different complexion had been thrown upon affairs by the discovery in the past year that coast coal could be converted into the coking material by a new process of thorough washing, which eliminated the hitherto refractory sulphur.

Chairman Blair was instructed to select a committee to carry out a series of tours of local manufacturing plants by children attending the public schools. It was considered that this should be undertaken before the weather breaks, and the group was informed that Superintendent George Steel was in favor of this novelty in education.

## CONCESSIONS NOT FAVORED

Some discussion took place upon the suggestion that Victoria should grant special water and tax rates as inducements to industries, with similar power concessions should be sought from the British Columbia Electric Railway Company. Chairman Blair said that, after careful consideration, he was opposed to such concessions, and was supported in his views by Alderman Harvey, who pointed out that, without special authority from the ratepayers, the Council had very narrow powers in such matters.

## SIR HALLIDAY CROON, NOTED SURGEON, DEAD

Edinburgh, Sept. 28.—Sir Halliday Croon, noted surgeon and former president of the Royal College of Surgeons, is dead, aged seventy-six.

## MASSEY SPEAKS FOR A UNITED EMPIRE

Interests Interwoven, Says New Zealand Premier in England

London, Sept. 28.—(Canadian Press cables) Premier W. F. Massey, of New Zealand, arrived in England to-day to attend the Imperial Conference.

Interviewed by Reuters at Southampton, Premier Massey said that in view of events in Europe it was necessary that every part of the British Empire should help the other part economically.

## EMPIRE MARKETS

Britain's only hope of finding new markets to replace European markets, Premier Massey said, lay in the overseas countries: the Empire. Similarly, Britain was the best market for the Dominions and the more prosperous the British Empire became the greater would be the benefit to the Dominions owing to her increased purchasing power.

New Zealand realized this, he said, and in recent years had greatly increased the number of commodities on which a preference was given to Great Britain. New Zealand was prepared to go further, but she must move in line with the British Government.

"We realize the truth of the motto: 'Together we stand; divided we fall,' and hope when the Dominion representatives return to their own countries they would be able to report that the Empire is securely united."

For World's Peace

Premier Massey favored an official interpretation of the positions of the Dominions regarding the legislation to be used when difficulties occurred with the Mother Country, and declared that the British Empire was more necessary than ever to the welfare and peace of the world.

With regard to the naval side of the matter of Imperial defense, Premier Massey said that New Zealand's naval force was only a nucleus of a navy intended to protect the trade routes. He entirely approved the scheme to make Singapore a British naval base. He said he believed this was necessary in the interests of Australia.

## NEW YORK GIANTS CINCH 1923 PENNANT

Ruth and Cy Williams Even up Home Run Race

New York, Sept. 28.—The New York Giants to-day clinched the 1923 National League pennant by defeating Brooklyn 2 to 0 and will oppose the New York Yankees, American League pennant winners for the third successive season in the world's series, which will start at the Yankee Stadium October 10.

## THIRTY-EIGHTH HOME RUN

Boston, Sept. 28.—Babe Ruth to-day cracked out his thirty-eighth home run of the season in the sixth inning of the game with Boston.

## PHILADELPHIA, SEPT. 28.—CY WILLIAMS, OF THE PHILLIES, HIT HIS THIRTY-EIGHTH HOME RUN OF THE SEASON HERE TO-DAY IN THE WINNING OF THE GAME WITH BOSTON. MARQUARD WAS PITCHING AND THERE WAS NO ONE ON BASE.

## HON. E. D. BARROW BACK FROM ENGLAND

Sees Thousands of Agriculturists as Prospective B.C. Settlers

Provincial Minister of Agriculture Back at His Desk To-day

Vancouver, Sept. 28.—Thousands of fine young agriculturists are living in England who would make the best of settlers for British Columbia, according to Hon. E. D. Barrow, provincial Minister of Agriculture, who returned this morning from a two-months' visit to the Old Country.

"I spent a good deal of time among the farmers," said Mr. Barrow. "I was not on official business, so did not deliver any addresses. However, I made it a point to interest myself in the farming communities, and I saw that the young people there are a great asset to British Columbia. They would probably be necessary to give some assistance at the beginning."

## REAL FARMERS

They are the class who are real farmers. That is, farming is all they know. I do not think they would want to go into the city. They are a fine type, and just what we need in the development of our agricultural resources. There are actually more of this class in England than is required there to carry on the farms."

## MET AGENT-GENERAL

Mr. Barrow met F. C. Wade, K.C., Agent-General for British Columbia, who is doing a splendid work in the interests of this Province, he said. He did not meet Mrs. Mary Ellen Smith, M.P., for Vancouver, who is on speaking mission in England for the Dominion department of immigration. She was lecturing in the North of England at the time Mr. Barrow was in the South. Mr. Barrow went to Victoria on the morning boat, and will be at his desk this afternoon.

## DAVIS CUP TEAM REACHES VANCOUVER

Not Downhearted by Defeat by American Tennis Stars

Vancouver, Sept. 28.—The Australian Davis Cup team consisting of Anderson, Hawkes, McIntosh and Schlesinger, arrived in the city this morning on their way home after making a magnificent fight to win possession of the famous lawn tennis trophy. They defeated Hawaii, Japan, France and lost in the challenge round against the United States by a comparatively close margin.

Anderson stated they were not at all downhearted by their defeat by the Americans, and intended to come back again next year for another try. He said that with a little chance in luck they would have won the doubles match against Tilden and Williams. There were some fine points when he won against Hawkes, but the latter played much better against the famous Californian than the scores would indicate.

With the added experience of another year, Anderson believes they will have a good chance to carry off the Davis cup next year.

## CHINESE OFFICIALS DIE IN EXPLOSION

Mines and Bombs on War Front Accidentally Explode

Sun Yat Sen Narrowly Escapes Death; Twenty-Four Killed

Canton, China, Sept. 28.—Twenty-four persons, including Yeung Sin Yat, head of the aviation department of Sun Yat Sen's South Chinese army, and other high officials, were killed recently by an accidental explosion of mines and bombs on the eastern front, where Sun's troops are fighting North Chinese forces according to a report received here to-day.

Sun himself narrowly escaped death according to the report as he visited the position where the accident occurred about ten minutes before it happened. It was reported to-day that Hoyden, North of Wai-chow, had been captured by Sun's forces thereby cutting off the advance of Chan Chung Ming, commander of the Northern troops in that section.

Madge: "You shouldn't say he's a confirmed bachelor unless you know." Marjorie: "But I do know; I confirmed him."

## No Opposition to Premier Stewart

Charlottetown, P.E.I., Sept. 28.—Hon. J. D. Stewart, Premier, and Attorney-General; Hon. J. A. Macdonald, Commissioner of Public Works and Hon. J. H. Myers, Commissioner of Agriculture, were returned by acclamation yesterday, there being no opponents in the field.

## PREMIERS AFRAID OF TOO MANY BANQUETS

Cannot Accept All Hospitality During Imperial Conference

London, Sept. 28.—(Canadian Press Cable)—With great tact the dominion premiers, who are in London for the imperial conference that is to open next Monday, it is understood, have made known the fact that it was impossible for them to keep on working during the conference if they accepted all the hospitality that has been designed for them and are continually eating. In consequence of this gentle hint, the prospective hosts of the visiting premiers do not expect them to attend more than a small percentage of the banquets which they have arranged and have intimated that the menus at these will be made less formidable than at the others.

## THE DAILY MAIL, APPLAUDING THE DECISION OF 1907 WHEN THE LATE SIR WILLIAM LAURIE, THE LATE PREMIER OF SOUTH AFRICA AND THE LATE DR. LEANOR STARR JAMESON, PREMIER OF CAPE COLONY, WERE III SIMULTANEOUSLY THROUGH BANQUETING WHILE ATTENDING THE CONFERENCE.

## INAUGURAL MEETING

The inaugural meeting of the Imperial Conference of Premiers will be held at 11 o'clock Monday morning in Downing Street, the London residence of the British Premier.

The conference will meet again on Wednesday and Friday, by which time it is expected that Premier Borden of Australia will have arrived. The Imperial Economic Conference will meet in the British cabinet offices on Tuesday and Thursday of next week.

The discussion of questions of procedure and with general opening statements in the second week of the conference will be broken up into committees of which there will probably be half a dozen, judging by the agenda.

## WOULD SUPPLY CANADA WITH WELSH COAL

Montreal, Sept. 28.—The active cooperation of the British Government with the Government of Canada is the best means towards the formulation of a progressive immigration movement and the development of this country.

This is the conviction of Sir Alfred Mond, prominent British parliamentarian, who is in Montreal to-day. Sir Alfred is principally here to interest himself in the consumption of Welsh anthracite coal.

"There is no reason," he said, "why Canada should not buy our coal. It is infinitely superior to the Pennsylvania anthracite and we can deliver it here cheaper. Of course, this market has not been cultivated in the past, but we are now giving it the necessary attention. It is not our intention to fill the whole market because we would not be able, but we can supply a good percentage of your demands."

## REPUBLIC DECLARED IN TURKEY, SAYS UNCONFIRMED RUMOR

Paris, Sept. 28.—A Havas Agency dispatch from Vienna says it is rumored there that a republic has been declared in Turkey. There is no confirmation of the rumor from any other source.

## PREMIER BALDWIN HAS ROMANTIC SON

Youth of 23 Writes Novel, is Fond of Travel, Joins Labor Party

London, Sept. 28.—Oliver Baldwin, the Prime Minister's romantic Socialist son, whose twenty-three years of life have been crowded with stirring experiences, has written a novel dealing with the decay of Western civilization, which is to be published next Spring. Meanwhile he is about to set out upon another of his adventurous travels—he has been all around in nearly every European country, Poland, many parts of Africa and the East End—but has not decided whether he will go.

He leaves here for Paris to-morrow and may go to Brussels, Italy or Africa. He says he wants to see how affairs are going on. It is said Mussolini's firmness attracts him, because he regards as so contrary to England's weakness. He says another war is inevitable before long and the Teuton race is doomed; but it matters nothing to him, as he is free and without ties.

He has expressed the opinion that the League of Nations is a gigantic waste of money, absolutely helpless, and run by men who don't know the butt end of a rifle from the other, adding that they are "theorists, all of 'em, and impotent in the face of facts."

Young Baldwin, who has joined the Labor party, which he aspires to represent in Parliament, is godfather to a gypsy. Motoring through the country he met a gypsy, running. He stopped and inquired his name. On learning that the gypsy required a nurse, he fetched one and suggested that if the newcomer was a boy he be named after him. The suggestion was adopted, and as a result the little gypsy rejoices in the Christian name Oliver Baldwin.

## SEES THE FINISH OF U.S. BUILDING BOOM

Labor Leader Urges Workers to Prepare For Rainy Day

Portland, Ore., Sept. 28.—An unhealthy condition exists in the building industry in America and workers engaged in that industry should prepare for the "rainy day" which must follow the collapse of the present boom, in the opinion of John Donlin, president of the Building Trades Department of the American Federation of Labor. Mr. Donlin gave out his warning yesterday at the convention of the building trades here in the course of the presentation of his annual report.

"Prevailing conditions," the report said, "are not conducive to good. This boom will see its end before we are aware, competition will again assert itself among all the elements of the industry; material manufacturers will slacken production in accordance with demand. Mechanics are being taught in great numbers. This demand will recede until we have reached 100 per cent. of normal and consequently only one in each three will find work. We must prepare to meet that inevitable condition."

Portland, Sept. 28.—(Canadian Press Cable)—The Labor organ, the Daily Herald, the Labor organ, will be continued until the end of this year at least. A decision to this effect was arrived at yesterday at a joint meeting of the Labor party and Trades Union Congress executives. At the end of the year the newspaper's financial position will be reviewed and the question of its future will then be taken into consideration.

The newspaper was about to go out existence owing to financial difficulties, but was given a lease of life by the Trades Union Congress at Plymouth a few weeks ago. It was then agreed that if the unions raised £15,000 by September 30, the Herald would continue publication until the end of 1923.

The financial statement made to the Congress showed that in the last twelve months £55,000 had been advanced to the Herald.

## TO PROLONG LIFE OF LABOR HERALD

Party and Trade Union Executives Give New Lease of Life to Organ

London, Sept. 28.—(Canadian Press Cable)—Publication of the Daily Herald, the Labor organ, will be continued until the end of this year at least. A decision to this effect was arrived at yesterday at a joint meeting of the Labor party and Trades Union Congress executives. At the end of the year the newspaper's financial position will be reviewed and the question of its future will then be taken into consideration.

The newspaper was about to go out existence owing to financial difficulties, but was given a lease of life by the Trades Union Congress at Plymouth a few weeks ago. It was then agreed that if the unions raised £15,000 by September 30, the Herald would continue publication until the end of 1923.

The financial statement made to the Congress showed that in the last twelve months £55,000 had been advanced to the Herald.

## AMERICAN AIDS PLAN TO ENDOW HOSPITAL ROOM

A tourist from Boston, Mass., who visited Victoria recently, was so impressed with the plan of the Great War Veterans' Association to endow a room at the Jubilee Hospital that he has sent a cheque to the Association to aid the veterans in their project. The name of the donor is withheld at his request.

## U.S. SEAPLANE WINS INTERNATIONAL RACE

Winners Average Flying Speed of 177.38 Miles an Hour

Cowes, Isle of Wight, Sept. 28.—The United States won the international race here to-day for the Schneider seaplane trophy. The time of the winner was one hour 12 minutes 24.4 seconds.

The machine piloted by Lieut. David Rittenhouse was the first to finish. The race consisted of five circuits of a triangular course each circuit equivalent to 42 miles.

The only French machine which started in the race came down during the event. The pilot is believed to have been unhurt. Rutledge Irvin, United States, finished second and Captain H. C. Baird, the only British competitor was third. The winner's average flying speed was 177.38 miles an hour.

## HAPPY VALLEY NAMES NEW HALL COMMITTEE

Special to The Times

Happy Valley, Sept. 28.—A social meeting will be held in the Lutton Hall on Saturday, September 29, for the purpose of electing a new hall committee. It is hoped that a good number of residents will turn out to help make the evening a pleasant and sociable one. The independent says that important developments may be expected but the official attitude is that these prison transfers are without political significance.

If crisis in Germany continue to be every day occurrences they will cease to be news.

## ANNOUNCEMENTS

## SARAZEN AND HAGEN MEET TO-MORROW

Have Easy Semi-Final Games For Pro Golf Title

Pelham Manor, N.Y., Sept. 28.—Gene Sarazen and Walter Hagen, by virtue of easy victories in the semi-final round to-day, will meet to-morrow for the Professional Golfers' Association title. Sarazen won to-day from Robert Cruikshank, of Westfield, N.J., seven and five, and Hagen defeated George McLean, of Bronxville, N.Y., twelve and eleven.

## FLYING FARMER HURT IN AEROPLANE CRASH

Regina, Sept. 27.—Harry Doucet, thirty-three, a farmer of Windhorst, Sask., was seriously injured this afternoon when he fell 150 feet from the airplane he was attempting to fly home. Doucet had purchased the machine for \$200, and it was his first solo flight. The machine was completely wrecked. Doucet may recover.

Mr. Leeming, president of the Victoria Lawn Tennis Club, received a telegram from the Australian tennis players to the effect that Hawkes, the star Australian player, will play here on Saturday afternoon, when the touring net stars will give an exhibition on the courts of the Victoria Lawn Tennis Club.

## DUNCAN CARNIVAL IS GREAT SUCCESS

Tasteful Event Staged to Aid War Orphans

Special to The Times  
Duncan, Sept. 28.—The grand harvest carnival, arranged by Madame la Comtesse d'Audiffret, in aid of the French orphans, held in the Agricultural Hall, Duncan, on Wednesday evening, proved a great success, quite a large number of people attending from all parts of the district. All the tables were filled, and the open space at the end of the hall held a great many onlookers, the side shows there proving most attractive. These consisted of a "carnegie boat" sailed by Miss V. Hayward and F. Kingston, an "orange grove" managed by Mrs. R. E. Barkley, "wheel of fortune" by Mrs. Boyd Wallis, "candle lighting" by Misses Evandi and Elsie Roome, and "broncho busting" run by Mrs. C. Colthurst and J. Barkley was popular with the male sex. Ice cream was sold by Mrs. R. E. Roome, Mrs. Hugh Garnett and Miss Palmer, and two mysterious Oriental booths, where you crossed the gypsy's palm with silver, and had all the wonders of your future revealed, were in charge of Mrs. J. H. Whitmore, assisted by Miss K. Whitmore, and the fortunes were told by Mrs. H. A. Davidson and Mrs. D. V. Forteous. The main hall was a mass of splendid color done with flags of all nations (kindly loaned by the Cowichan Bay Yacht Club) greenery and dahlias, under the direction of Mrs. B. Hope, assisted by Mrs. Leather, Miss V. Lamb, Miss Dawson-Thomas, Miss Elsie Roome, B. Hope and Mr. Carr-Hill, whilst the balcony where a light supper was served, was beautiful with lanterns and flowers, with the French flag above and a wonderful poster, the work of Mrs. C. J. Lewis, announcing that it was the "Banana Cafe," although they had no bananas. The balcony and supper were arranged and managed by Mrs. H. Roome, Mrs. Gartside-Spaight, Mrs. Moss, Mrs. Jackson and Miss de La Billiere.

**Cabaret Supper**  
The cabaret supper was delicious, and daintily served, with Mrs. O. T. Smythe in charge, assisted by Mrs. H. A. Patterson, Mrs. A. E. Green, Mrs. J. Hatter and Mrs. Islay Mutter, who also arranged the dresses for the waitresses. These were made of yellow paper with black diamonds and yellow flowers worn in the hair. The waitresses were Misses V. Stilwell, E. Steppes, K. Townsend, M. Burnett, M. Green, B. Inche, Elsie Dwyer, Hazel Castley and Ella Tarrington. Girls in Eastern costume also went about amongst the tables, selling cigarettes, ice cream and favors of all kinds. The raffle for a beautiful water color painting, donated by Mrs. C. Wallack, Cowichan Bay, will be finished in a week or two.

**Graceful Dancing**  
The various "twins" were excellently put on and well received. In the first half of the programme Mrs. Charles E. Wilson, Victoria, captivated the audience with her charming singing of "Pale Moon," dressed in a gorgeous Indian costume of the "Blackfoot" tribe; Mrs. R. King sang two songs, and J. Bricknell sang "I'm Getting Better Every Day," with chorus by Mrs. H. P. Swan, Mrs. G. Stuart, Mrs. W. E. Corfield, Mrs. McInnes, Miss M. Payne and Miss Dorothy Macmillan, in black and red costumes and becoming red hats. During supper the elephant "Lot" (Misses Wright and Roome) and his trainer "Ali" (Miss Dawson-Thomas) created much amusement with his dancing and antics, and a repetition was demanded. "Moonstruck," solo by Mrs. Wade and chorus, Mrs. G. Stuart, Mrs. W. E. Corfield, Mrs. H. P. Swan, Mrs. Alexander, Miss Payne and Miss Grace Stephens, all dressed in dainty blue with silver moons, was vociferously encored. R. E. Macbeath in Italian costume, wheeling a barrow of vegetables and fruit and real live monkey, sang a charming duet with Miss Edith Bevan, also in Italian costume with a large basket of flowers. Their dance was also most effective, and when as a finale they sang "Yes, We Have No Bananas," they brought down the house. Mathews' orchestra, from Maple Bay, a new venture, supplied excellent music until 2 a.m.

Always fresh, pure and sweet—as milk, our most important food, should be. Best obtainable in four sizes it is the convenient and economical milk for every need. Order a few tins today.

## DUNCAN JOINS IN ISLAND'S FORWARD PLANS

Seeks Landing For Proposed Mill Bay Ferry  
Supports Victoria Appeal For Publicity Expansion

Special to The Times  
Duncan, Sept. 28.—The monthly council meeting of the Duncan Board of Trade was held in the secretary's office on Wednesday evening. Those present were: H. F. Prevost, president, in the chair; H. T. Reed, S. R. Kirkham, W. T. Corbushley, A. H. Peterson, H. Savage, W. Ruffel, O. T. Smythe, Dr. Kerr, Colonel Oldham, T. Elford, G. A. Chees, H. A. Hooid, E. W. Neel and the secretary, G. T. Cresswell.

A letter was read from Colonel Donnelly, assistant district engineer, in reference to the bridge at the south end of the Shawinigan Lake railway station, stating that the matter was drawing to a conclusion in a manner which he trusted would be satisfactory to all concerned.

**Trustees' Meeting**  
A letter was read from the City Clerk referring to the convention of the British Columbia School Trustees' Association, which is to take place on October 16, 17, 18, and a committee was formed to arrange for the loan of motor cars to give the visitors trips round the district. The president and secretary are to act with W. C. Tanner, president of the transportation committee.

**Proposed Ferry**  
The council endorsed a resolution of the Cobble Hill, Shawinigan Lake branch, calling upon the Victoria Chamber of Commerce to request the public works department to provide landing facilities for the proposed car ferry service across the Saanich Inlet, in order to relieve the load on the main ferry.

A letter from the Victoria Chamber of Commerce, enclosing copy of a communication from the board of railway commissioners on the subject of express rates, was referred to the transportation committee. The notification states that there will be sittings of the board at Ottawa and in different parts of Canada, at which evidence might be given by interested parties and duly considered.

**Publicity Expensive**  
A petition received from the Victoria Chamber of Commerce to the Government asking that the Provincial Bureau of Information be expanded and that an Advisory Board should be appointed, members of which would act voluntarily, and give assistance in various specified ways, in the endeavor to promote greater publicity of the facilities, resources and attractions of the Province, was endorsed and signed by the president. The municipal council will be asked to place a sign at Sherman's Crossing, pointing the way to Nanaimo.

**Prize Fund**  
A cheque for the promised subscription of \$50 to the prize fund for district exhibit at the Agricultural Show was signed and subsequently paid over to the secretary of the Agricultural Society.

## SIDNEY CLUBS PLAN FOR WINTER SEASON

Canners Busy, Paved Road to be Well Maintained; Other Sidney Items

Special to The Times  
Sidney, Sept. 28.—Another very enjoyable dance was given on the C.P.R. ferry, Motor Princess. The saloon was decorated with small colored lights and flags. Supper was served at twelve o'clock, and the dancing continued again until one in the morning. Among those present were Mesdames A. Critchley, Simister, Corwell, McLeod, McNeil, McNeil, Woodlett and Mrs. Durkin (Portland, Ore.), the Misses P. and G. Simister, P. Whitting, M. Cobblecliek, A. Corfield, C. McNab, P. Fatt, V. Wright, N. Simister, Christie, St. John, E. Wright and A. Gill, Messrs G. Cochran, F. Simister, T. Tucker, B. Burton, W. Wakefield, H. Volger, McInyre, R. Thompson, J. McLeod, W. Corwell, A. Critchley and J. McNeil.

**Harvest Festival**  
The Union Church harvest festival is to be held on Sunday, September 30. In the morning there is to be a special rally day service for the Sunday School and in the evening there is to be special music and address.

**Canners Busy**  
The Saanich Canning Company has been very busy. On Thursday for the first time it operated three machines as an experiment for coring and peeling the pears and apples. It is employing a large number of hands, and this week the Ss. Cascade shipped ten tons of canned fruit for Vancouver. The Ss. Otter shipped thirteen tons of poultry shell for delivery at Moose Jaw, Sask., and the Ss. Echo shipped fifty tons of shell for Vancouver.

**Keep Highway Clear**  
The Department of Health has sent its representatives to inquire into some complaints in connection with the drainage. The whole system was carefully gone into, and Sidney can shortly be looking for great improvement. The drainage system for keeping the new paved road dry at all times of the year is getting on apace.

**Use Motor Ferry**  
The C.P.R. ferry Motor Princess stops on Sunday, as it is the end of the season. A great many local residents have been making the round trip this week. Among those going were Mrs. Reid and baby, Mr. and Mrs. Cochran, Miss Fatt, Mr. Mitchell, Miss Cobblecliek and Mr. and Mrs. McLeod.

**Back From Banff**  
Mr. S. H. Mitchell, secretary of the

Angus Campbell & Co. Ltd.

## UNION OIL COMPANY FOUNDER DEAD

Los Angeles, Sept. 28.—Mr. Lyman Stewart, dean of Southern California oil operators, founder of the Union Oil Company, and chairman of its board of directors, died of acute bronchitis and complications at about 12:45 o'clock this morning.

"That certainly was a very fine sermon," said an enthusiastic church member, who was an ardent admirer of the minister. "A fine sermon, and well-timed, too."  
"Yes," answered his unadmirable neighbor, "it certainly was well-timed. Fully half of the congregation had their watches out."

## VICTORIA MAN CHOSEN A. AND N. DIRECTOR

Calgary, Sept. 28.—Major M. J. Crehan, of Vancouver, was elected president of the Army and Navy Veterans' Association at the closing session of the convention here yesterday afternoon. Captain H. Colbourne was reappointed secretary-treasurer, Major S. Rowlinson, of Victoria, was elected a director.

Formation of Dominion and provincial tribunals to consist of members from the Government, veterans' associations, farmers, immigration officials and other interested parties as a means of stimulating immigration to Canada, was advocated by Major J. E. Speranza, of Montreal, in an address at the closing session on the problems of immigration.

The next Dominion conference of the Army and Navy Veterans will be held in Winnipeg.

## OUR MEDICAL VISITORS

Victoria is particularly pleased to welcome to this city the members of the American College of Surgeons who will conduct what is described as a sectional meeting of that body during to-day and to-morrow. This part of the world is proud of the fact that its medical men keep abreast of the times. And we shall presume that the gathering in Victoria is the result of their efforts to bring the manifold advantages of these interchanges within easy reach of their own particular territory. They are entitled to that satisfaction and the general public of this community will share in the benefits that must flow in consequence.

Frail humanity understands very little about its own mechanism and only becomes interested in its working when aches and pains disturb the even tenor of its way. The ordinary individual is quite content to allow a reasonable number of his fellow men to explore the complexities of the human frame and issue the general instruction for its care in normal operation and apply the remedies when it gets out of gear. But the medical man will always cheerfully admit that the marvellous progress which medical science has made during the last half a century is merely a prelude to discoveries which sooner or later will still further ameliorate human suffering and assist in the better fortification of the body.

Conventions such as that which the American College of Surgeons is now conducting constitute the clearing house for new ideas and new discoveries. At these gatherings there is a liberal and ungrudging pooling of all the results of untiring research. Consequently such an interchange is educative to the profession itself and affords the general public a glimpse of what is being done in its behalf. And it will be especially gratifying to the citizens of Victoria to learn that this evening's session will be open to them. For important questions like public health—ideals and hospital improvement cannot fail to be attractive to the individual who realizes the economic value and significance of a healthy nation.

The American College of Surgeons; particularly those who have been instrumental in persuading such distinguished medical men to come to the conference and give it the benefit of their knowledge and experience, are to be congratulated. Victoria associates itself with the genuine appreciation which is universally accorded to the members of the profession who respond to the call of suffering humanity at any hour of the day and night—the men who too frequently realize the truth of the old adage that the doctor is the "first in and last paid."

While the business of the Convention will no doubt occupy the major portion of the time which the delegates will spend in the city we shall hope that it will be possible for most of them to escape the eagle eye of the presiding officer for a brief respite from "shop" talk to get a look at the neighborhood.

## AN OLD FEUD

Bavaria hates to be ruled from Berlin and the average Bavarian will never get rid of his antipathy to the average Prussian. It always was and may always be. The student from Hanover and the student from Munich will continue to fight their more or less harmless duels and get their "cuts of honor" in the back yard of that picturesque tavern which overlooks the Neckar at Heidelberg. But when it comes to weakening the whole fabric of Teutonic existence by giving the old prejudices full rein it is largely problematical whether the separatists will be allowed to have their way. The changed order, the republican regime, weakens to some extent the cause of federation; but there is nothing in the recent developments to suggest that Bavaria would leave the republic and thereby serve the purposes of France. Abolition of the separate monarchies and the substitution of republican administration for the whole of Germany has aggravated the political strain that has always been apparent; but the war showed where Bavaria stood.

## JUST A TRIFLE OUT

When Mr. Bowser addressed an audience in Vanderhoof the other day he declared that the people of this Province were being put to the expense of one thousand dollars a day "to keep officials running about in motor cars."

The leader of the Opposition has an uncanny knack of getting his figures hopelessly wrong. Nor will he ever be near the mark as long as he indulges in wild statements and ignores facts that are matters of public record.

Mr. Bowser could have gone over to the Parliament Buildings and have satisfied himself upon this particular item of expenditure. An efficient system of accounting would have revealed to him in the most minute detail the exact

cost of this particular service. But instead of being \$1,000 a day he would have found it difficult to have made it more than \$270.

An examination of the facts would inform Mr. Bowser upon every point. He may see how many ears each department operates and the daily costs of each. But the leader of the Opposition is not interested in detail. The Government over which he presided for a brief period found it less difficult to handle public accounts in lump sums. What did it matter to a few thousand dollars here and there as long as "the boys" were kept in good humor.

The Conservative chieftain has apparently failed to produce his new policy. Latest reports credit him with condemning the Government for borrowing money and for not carrying out more public works.

## AN EXCELLENT ADVERTISEMENT

There is no Canadian who will "not feel a sense of pride in the spontaneous and substantial response which has been made by the people of this country to the appeal of the Minister of Finance for a loan of \$172,000,000. After four days on the market more than \$100,000,000 has been subscribed and there is every indication that the objective will be easily passed before a similar period of time has expired.

The moral is that Canada is the best market of any country in the world for this loan. It speaks much for her economic position and the prosperity of her people. And the success of the issue can be valued in terms of fruitful advertisement. It is a complete repudiation of the "whisper of death" and a pronouncement of economic virility that will be heard outside this Dominion. When people have faith in their own country and demonstrate it with hard cash the foreign investor is usually satisfied.

## Note and Comment

Mr. Gompers says that American Labor is not menaced by radicalism. Nor it won't be as long as men of his wisdom are permitted to wield an influence.

At last the Spanish prisoner fraud is about to go out of fashion. Many of the men who have conducted this gigantic swindle have been arrested and their directory of possible victims confiscated. It's a marvel how it went on so long.

Mr. Bowser is telling the people of the North country that the Oliver Government ought to be kicked out of office because it is borrowing too much money and is not reducing taxation. But he insists that the P.G.E. be built to Prince George, that more roads be constructed, and that more public works be carried out. He doesn't explain how the Government can spend more money and borrow less.

The Times is informed that the heavy convulsions felt in the city throughout the nights during the last few days have been caused by the blasting operations at the new drydock, and not by big gun practice by the military forces, as a protest in these columns stated. We hasten to make amends to the military coupled with an expression of hope that the drydock operations will very soon reach a stage where blasting at night will not need to be carried on with so much vigor.

## Some Thoughts for To-day

And 'tis my faith that every flower  
Enjoys the air it breathes.

Wordsworth.

However, 'tis expedient to be wary;  
Indifference certes don't produce distress;  
And rash enthusiasm in good society  
Were nothing but a moral inebriety.

Byron.

Oh! 'tis easy  
To beget great deeds; but in the rearing of  
them—  
The threading in cold blood each mean detail,  
And furze brake of half-pertinent circumstance—  
There lies the self-denial.

Charles Kingsley.

Let the soldier be abroad if he will, he can do  
Nothing in this age. There is another personage—  
A person less imposing in the eyes of some,  
perhaps.  
Insignificant. The schoolmaster is abroad, and  
I trust  
To him, armed with his primer, against the  
soldier in  
Full military array.

Lord Brougham.

## Our Contemporaries

### BETTER THAN IN U. S.

London Free Press:—As a matter of fact, there is no country which participated in the war that to-day is as well off as Canada. It is questionable if conditions in the Dominion are not better than in the United States, which is suffering from a reaction following the boom of last Spring.

### SNIPING FROM OTTAWA

Ottawa Journal:—Man writes to a Toronto paper suggesting that the principal street of that city should be called "Main" instead of "Yonge." Those who know Toronto and who have read a certain Lewis novel will agree that the suggestion is appropriate.

### IMPORTANCE OF HIGH SCHOOL

Belleville Intelligencer:—The high school years in the lives of young men and young women are the period in which much of the foundation of character is laid. Moreover, in the majority of cases they represent the final classroom training of those who are soon to take their places in society as men and women. For these reasons the educational facilities of the high school should not be slighted.

## Other People's Views

Letters addressed to the Editor and intended for publication must be short and clearly written. The Editor reserves the right to shorten the length of any article. All communications must bear the name and address of the writer, but not for publication unless the writer wishes. The publication or rejection of articles is a matter for the discretion of the Editor. No responsibility is assumed for papers for MSS. submitted to the Editor.

### THE WAR MEMORIAL

To the Editor:—I understand there is a movement on foot to build a cenotaph in Victoria in memory of the men who fell in the Great War. I sincerely hope that there will be added the names of those who have died since their return, where death was due to war service, although not as found by the Pension Board or the D.S.C.R.

A memorial, be it of stone, concrete, brass or trees is a noble mark of the pride of Victoria in the achievement of its citizens, but there is another memorial which the same citizens should bear in mind, but which does not evoke the same civic pride. We have amongst us many men, and the dependents of men, who by their service, have deserved well of their country, but who cannot get common justice in the matter of pensions and treatment. There are the living memorials of the Great War who just missed the honor of a cenotaph.

In addition to honoring the dead would it not be well for Victoria and other cities to record their determination that these men and women must receive fair play and a proper compensation. It seems a mockery to honor the dead and overlook the wounded and diseased.

H. D. TWIGG.  
September 25, 1923, 1009 Chamberlain Street, Victoria, B.C.

### LUCKY ESCAPE

To the Editor:—I see by the daily press that we have just escaped a calamity—I mean a strike by the employees of the British Columbia Electric Railway Company.

I hold no brief for either, but the consequences for both sides would have been most disastrous, and for the citizens of Victoria most inconvenient. The latter would have overcome the inconvenience by the use of jitneys, and many, sooner than be subjected to such precarious transportation, would invest in motor cars—quite a bonanza for the motor salesman.

The business of transportation by tramway companies is getting to be more uncertain every year through the inroads being made by motor traffic. Force the public into the habit of using motors and it will then be a hard matter to induce them to again patronize the electric street cars.

The street car traffic being killed, it is a fact that those men who derive their livelihood from the service, in the employ of the B.C.E. Railway Co., would find their livelihood gone, from the superintendent in his office to the wiper in the sheds.

It is a well-known fact that the actual cash lost by a strike is never regained through the passage of years, even though the strikers gain their objective.

The would-be investors would never trust their capital to any British Columbia projects, and would look elsewhere.

Why should there be a demand for increased wages when the prices of commodities are on the wane? I fail to see.

In Winnipeg, when the public which usually exercises great patience, was finally the motor, on a similar occasion, it adopted the motto: "We Walk" and stuck to it, too.

A TRAMP.

### A WOOLLEN INDUSTRY

To the Editor:—I have been laying back on my oars thinking for the last year or two, and have not troubled you, or your readers, with any of my thoughts, so I intend to, as briefly as possible, give a few of them here with your good grace.

I am now trying to get the public of B.C. interested in the woollen industry. As one who has kept tabs on events in general in Western Canada for over twenty-five years, I might be permitted to express my views through your valuable paper.

Now, sir, we have been calling to the East for capital, and we get the jolly and the glad hand from the capitalists back there, but none of their money to start these industries that are so vital to the building up of our Province; a great many of our people overlook these vital points in the discussion that goes on. The manufacturer back East, the banker, the railway shareholder, the iron and steelmaker, are all against starting industries in this Province, because they want us as their customers and will continue to serve us as long as we are sheep enough to be shorn of our hard-earned dollars, sending back home for what we can manufacture here and divide the trade with the East as far back as Winnipeg. Mr. Editor, we must look after ourselves and the only way to build up and keep our people at home is by making plenty of all kinds of work for them.

Now, sir, let us get the woollen industry on its legs and able to look after itself and I will show the people how to start a smelter and get capital interested. Had Mr. Smith Curtis' health and my health not put a stumbling block in our way we would have had a small Swedish charcoal smelter now at work down near Gordon River on the West Coast of Vancouver Island, turning out pig iron. We had the plan mapped out to send samples (ingots) to San Francisco, Portland, Seattle, Vancouver, Rupert and our home city, Victoria, and have the samples on exhibition in each of the above towns where the business speculator could see the sample of the Vancouver Island product, he would inquire from where it came, and come over and see a live issue being tested in a properly equipped intelligence. This is the proper way to get capital interested, and it costs but a few hundred dollars, a paltry sum. Don't talk in millions in starting new industries, don't killed the chicken that will lay the golden eggs. If you coax him till he is old enough he will work to the benefit of the whole Province. The fact of the old saying is, "God helps those who help themselves," and it is up to us in this Province to help and co-operate with each other in building up and continue to build in a sensible way. It's up to ourselves, work honestly together, and we will have results and not before long by this.

FRANK P. SLAVIN, M.E.

1025 Queen's Avenue, Victoria.

## WEST END W.C.T.U. MET YESTERDAY

The West End branch of the Women's Christmas Temperance Union met yesterday afternoon in the parlor of Wesley Church, and heard an interesting report of the recent conference in Vancouver, from Mrs. Welch, the local delegate. Plans for the Winter were discussed, and a resolution drafted to be sent to the Attorney-General, urging the establishment of a Juvenile Court.

### AN UNWORTHY PROSECUTOR

Magistrate—You are accused of stealing three chickens. Colored Prisoner—Judge, de man dat calls dem of hens chickens has a mighty tough conscience to appear in court.

## IN WOMAN'S DOMAIN

### COL. GEORGE HAM IS HONORED BY WOMEN OF PRESS

Women Scribes Show Affection by Presentation of Silver Loving Cup

Delegates to the Canadian Women's Press Club Convention Entertained

Col. George E. Ham, the only honorary male member of the Canadian Women's Press Club,

was signally honored by this organization last evening when he was presented with a silver loving cup, indicative of the affection in which he is held by women scribes throughout the Dominion.

The presentation was made at last night's dinner at the Empress Hotel when the members of the local branch of the club were hostesses to the visiting delegates from all over Canada.

Miss Kenneth Haig, of Winnipeg, newly-elected president of the club, made the presentation, referring in the happiest terms to Col. Ham's "fathering" of the club and his long-continued and valued assistance.

Col. Ham, who was visibly moved by the incident, in reminiscent vein recalled his arrival in Winnipeg thirty-seven years ago. Largely through his offices, sixteen women some years later traveled to the St. Louis Exposition to represent the newspapers of Canada and this little group, at its instigation formed itself into the nucleus of that influential body now known as the Canadian Women's Press Club. His membership in that club he prized above all others, averred the colonel, and in losing he expressed to its members to use their power and influence to the best interests of Canada and the British Empire.

### Formal Welcomes

Cordial welcome was extended to the visitors by the Hon. T. D. Pattullo on behalf of the Provincial Government; Mayor Hayward spoke for the city, and B. C. Nicholas for the local press.

Miss Lucy Doyle, honorary president of the club, paid eloquent tribute to the beauties of Victoria and acknowledged the genuine and warm welcome extended by the West to the delegates. She referred with pride to the amity and splendid spirit of co-operation existing in the club, as evidenced in the recent sessions of the triennial conference.

The musical part of the programme was provided by Miss Eva Hart, who sang delightfully in solo numbers and in duet with J. Q. Gillan, Mrs. A. J. Gibson lending brilliant support at the piano. During the dinner Professor Lou Turner's orchestra rendered musical numbers and also accompanied the community songs led by Mrs. Miriam Green Ellis, of Edmonton.

### Many Guests

In addition to the speakers those at the head table included Mrs. H. P. Hodges, who presided; Mr. James Adam, president of the Rotary Club; Mr. P. B. Scurrah; Col. George Ham, of the C.P.R.; Mr. Kennedy, Mr. Beard, Mr. H. P. Hodges; Miss Haig, newly-elected president of the Press Club; Mr. Hugh Savage, of the Cowichan Leader; Miss Lucy Doyle, national president of the Press Club; Miss Cleland, Mrs. Stella Burke, Mrs. Butcher, Mrs. Horton, Mrs. Lawrence, Mrs. Bailey Price, Mrs. Mackay, Mrs. Benoit, Miss Houston, Judge Murphy and Miss Macdonald.

Representatives of local organizations included Mrs. Curtis Sampson, regent of Municipal Chapter, I.O.D.E.; Mrs. Hyndman, president of the Women's Canadian Club and University Women's Club; Miss Bowron, president of the Kumtiks Club; Mrs. N. del Shaw, president of the Authors' Club.

### To-day's Programme

This morning the delegates were entertained at breakfast and luncheon by the C.P.R. and in the interim were driven around the city and surroundings by members of the Rotary and Kiwanis clubs, who kindly placed their cars at the disposal of the club for the occasion.

### JUBILEE W.A. HAS BUSY SESSION

Mrs. Rhodes, president, presided at the meeting of the Women's Auxiliary to the Provincial Jubilee Hospital, held in the Nurses' Home yesterday afternoon.

Bills amounting to \$236.48 were ordered paid.

A letter from the board of directors was received thanking the Auxiliary for the furnishing of the waiting-room in the administration block.

A letter of thanks was also received from the president of the training school of the Jubilee Hospital for the gift of gramophone records.

Mrs. Hermann Robertson reported that she had banked \$184, member-ship dues from the following: Hon. Mrs. Burke Roche, Mesdames G. H. Barnard, Ross Sutherland, Thornton Fell, A. C. Burdick, C. N. Cameron, Randall, Walker, Roberts, Bechtel, Nash, Sam Drake, Dunbar, Mr. Lennan, Morton, J. A. Cameron, Percy Cridgie, Monteth, F. N. Borden, Copp, P. J. Curtis, A. Car Dillabough, Wm. Cathcart, Bryant, A. D. Ford, Leader, A. Dean, J. Fenerty, G. D. Christie, H. Cooley, A. E. Christie, Bartholomew, Fowles, Dick, Bannerman Campbell, J. O. Cameron and Hedden Gillespie. Two new members were received during the month, Mrs. Dick and Mrs. McCollough.

The sewing society under the convenship of Mrs. E. H. Griffith will hold its opening meeting on Wednesday, October 3, and a large attendance of members and friends is anticipated. Plans for the Winter's work and the beautifying of the grounds round the new hospital, were discussed.

## SOCIALLY PERSONAL

Lady Cameron, of Vancouver, arrived to-day on a visit to her daughter, Mrs. Homer-Dixon.

Mr. R. H. B. Ker is leaving to-day for Winnipeg and Montreal on a business trip.

Miss "Tommy" Scott, of Salt Spring Island, is visiting in Victoria as the guest of Mrs. Henry Croft, Mt. Adelaide, Esquimalt.

Miss Helen White, of Vancouver, is visiting for a few days in Victoria and is a guest at the home of Rev. Dr. Leslie Clay and Mrs. Clay.

Mrs. Mayhew, George Road, who is leaving for Los Angeles, is visiting with Miss Sill, Linden Avenue.

Miss Janet Doyle, of New Westminster, is spending a month in Victoria as the guest of her cousin, Miss Catherine Fraser, Denison Road.

Mr. and Mrs. Gard, of Seattle, are spending a few days in Victoria as the guest of the latter's brother-in-law and sister, Dr. and Mrs. A. E. McKicking, Linden Avenue.

Mrs. Fred Carne and Miss Agnes Carne, of Oliphant Street, who have been spending the past four months visiting with relatives and friends in California, are expected home shortly.

Mr. and Mrs. Sidney Smith, who have been the guests for the past few days of Mr. and Mrs. Arthur Walsh, Beach Drive, left yesterday en route to their home in Omaha, Nebraska.

Miss Catherine Fraser entertained at tea at her home on Denison Road yesterday afternoon in honor of her cousin, Miss Janet Doyle of New Westminster and Miss Daisy Evans, who recently returned from England. About thirty guests were present.

Included in the programme for Saturday evening at the weekly dance held by the New Friendship Club at the K. of P. Hall, North Park Street, will be a waltz competition. There will be two prizes awarded to the lady and gentleman judged the best. Hunt's orchestra will be in attendance. The prize waltz will commence at 10 o'clock.

## CHARMING NUPTIALS OF LOCAL COUPLE

Miss Yerrill and Mr. J. Bryant United at Picturesque Ceremony

Centennial Methodist Church was the scene of a charming wedding when on Wednesday evening Miss Harriet Violet Yerrill, of 563 Head Street, became the bride of James Bryant, son of Mr. and Mrs. Thomas Bryant. Miss Yerrill was until her marriage assistant chief officer in the B.C. Telephone Co.

Rev. Dr. Davies performed the wedding ceremony, the church, which has been beautifully decorated for the occasion, being crowded with friends of the happy couple. Raymond D. Wilder presided at the organ.

The bride was attended by her father, looking radiant in a lovely gown of ivory charmeuse, sewn with seed pearls and draped with filmy panels of French lace. Her veil of Brussels lace was held by a friend for the occasion, and she carried a bouquet of bridal roses.

Three bridesmaids, the Misses Trickey, Doris Vincent and Cissie Passmore, were in attendance, and made a dainty retinue. Their pretty frocks were composed respectively of turquoise, orchid and shell pink Brene de Chine, each being adorned with a floral cluster of pastel-tinted blossoms and silver foliage. Two picturesque little flower girls in mauve organdie completed the bridal procession.

Following the ceremony over a hundred friends attended the reception at the home of the bride.

The bride was attended by her father, looking radiant in a lovely gown of ivory charmeuse, sewn with seed pearls and draped with filmy panels of French lace. Her veil of Brussels lace was held by a friend for the occasion, and she carried a bouquet of bridal roses.

## ELKS HERE SPONSOR JOLLY AFFAIR

Victoria Lodge Opens Season With Big Success; Others to Follow

The Victoria Elks last night fully lived up to their reputation as hosts, the opening dance of the season staged at their clubrooms, going with its usual vim and enthusiasm. Some two hundred Elks and their friends attended the affair, and danced into the small hours to the lively strains of Ozard's orchestra. An excellent buffet supper, served under the direction of Brother Andy C. Hill, augmented the evening's enjoyment.

Members of Victoria Lodge, No. 2, B.P.O.E., under whose auspices the event was given, deserve hearty congratulations on a signal success. The committee, whose broad shoulders so successfully bore the onus of the arrangements, was composed as follows:

Brothers Alfred T. Weight, chairman; Darrel W. Spence, Frank Somers, Herbert Collings, Harry Reid, Bob Fitch, Jack W. Gillis, Harry N. Howard, Jimmy Stewart, Fred C. Dillabough, Gus Brown, Gus Mehan, Amy C. Hill and William Nield.

An interesting winter programme is ahead of the organization, and will comprise monthly dances, concerts, "spokers," and other entertainments, in which the Elks' minstrels are expected to give a good account of themselves.

Mrs. J. Chappell, assisted by Mrs. Alice M. Thomson, is making arrangements for a bridge and Mah Jong party to be held in the ballroom of the Empress Hotel on Monday night next, the proceeds of which are to be given to the Red Cross for the British refugees at William Head. ## DANCE TO-NIGHT FOR BILLY MUIR

The swimmers' dance which is being held at Temple's Hall this evening as a medium of giving Billy Muir, the injured diver, the net receipts as a birthday present, promises to be one of the most successful events of the season. The committee, which is made up of members of the different swimming clubs, has been successful in disposing of upwards of 300 tickets and Miss Audrey Griffin, convener, hopes that the net receipts will exceed \$100. Tickets for the dance can be secured at the door, and dancing will be from 8 to 12.

The meeting discussed the possibilities of work in the North, in the interior and on the Island.

Local officers and delegates to the Y.W.C.A. Conference meeting morning at 9.30 o'clock for a crowded day's deliberation and discussion. The chair was taken by Mrs. C. A. Peter, representative of the Vancouver board, representative of the Vancouver Y.W.C.A. staff on provincial organization, in New Westminster Mrs. Mackenzie is president, Mrs. Barry and Miss Blanche White respectively representing their local board and staff on the provincial board. In Victoria, Mrs. George Piercy is president, Mrs. Niven representative of the board, and Mrs. C. N. Bishop, representative of the board and general secretary, while Miss Lucille Koyl represents the girl membership.

## AT THE THEATRES

PANTAGES OFFERS  
GOOD COMEDY SHOW

Macey and Baird Comedians  
Will Alternate With Vaudeville Here

Pantages Theatre this evening initiates a novel departure from early week vaudeville, presenting the Macey and Baird comedians in the first offering of their extensive repertoire, which covers the entire field of dramatic art.

The four-act rural comedy-drama, "Marian Grey," will be to-night's introductory bill, with the curtain rising promptly at 8.15 o'clock. The management of the Pantages considers that Victoria will be surprised and well pleased with the quality of the new entertainment, which will alternate with the regular Pantages vaudeville shows throughout the winter, should the patronage warrant the cost involved in this undertaking.

To-night's presentation will be repeated to-morrow afternoon at 2.30 o'clock, and in the evening at 8.15 o'clock.

On Monday night the Macey and Baird Company will present the four-act play "Clouds and Sunshine," and will then return to the mainland for the three days the Victoria theatre-goers devote to vaudeville.

## TO-DAY'S AMUSEMENTS

Pantages—Marian Grey.  
Royal—Wandering Daughters.

peated to-morrow afternoon at 2.30 o'clock, and in the evening at 8.15 o'clock.

## ROYAL VICTORIA

"Delightfully blending the emotions of two girls of contrasting natures in search of romance, "Wandering Daughters," James Young's first National picture version of an original story by Dana Burnett, is the attraction at the Royal again to-day.

Devoid of the dry sentiments of so many pictures dealing with lonely topics, "Wandering Daughters" is said to be pleasingly different and highly entertaining drama, appealing to the most discriminating critics of the screen.

Revealing the adventures of two debutantes enamored of a male vamp and their activities in his company, "Wandering Daughters" develops many unusual angles and numerous surprising situations as it runs its course.

## THE PLAYHOUSE

length, according to its critics, and the entrance of two respective fathers into the social affairs of their inexperienced daughters is reported both amusing and highly dramatic. Marjorie Daw and Maudie Turner de la Motte are cast as the two principal "wandering daughters," and William V. Mong, Noah Beery and Allen Forrest are assigned the leading male roles.

In addition to the feature film the Royal management will present the scenic marvel the earthquake at Yokohama. The production starts off with the leaving of the Empress of Australia for Yokohama, its arrival there, scenes in the harbor, the beginning of the earthquake and the fire, which followed so closely after it.

## PLAYHOUSE

The Compton Comedy Co. in "Wedding Bells" maintains their established reputation for high-class, clean comedy. Mr. Francis Compton is seen in a part entirely different to the strenuous one of "Cappy Ricks" of last week, yet his clever portrayal of Reggie Carter is every whit as entertaining to the audiences. Miss Peggy Dundas, as the first Mrs. Carter, is as charming as always, the smart costumes in which she appears suiting her to perfection. Miss Agnes Burton and Herbert Leslie are cast in very amusing character roles as the two servants, and draw forth hearty laughter, while the remainder of the company very completely fill the respective parts in a manner fully appreciated by the large audiences.

## CAPITOL

After five men, sent out from a building post with full loads, have failed to return, Shad Galloway, the flinty factor, offers five hundred dollars to the man making the trip—and Gabriel Dure, the young trapper, accepts, knowing death stalks him.

From the exciting situation starts the absorbing action of "Where the North Begins," a pictureplay of the far north, set in the desolate wastes of snow where men obey their impulses, undeterred by laws of right.

and wrong. This picture is now showing at the Capitol Theatre. Galloway is a brawny brute of a man brooking no interference; he has set his desires on Felice, a Turkish girl who lives in the post. Finding the girl lovely and is loved by Gabrielle, he plots to get the latter out of the way. A gang of outlaws proves his instrument.

Rintintin, the almost human police dog, is the center of interest in the Warner Brothers' classic of the screen. Around him are grouped the following cast of players: Claire Adams, Walter McGrail, Pat Hartigan, Myrtle Owen, Charles Stevens and Fred Hunter.

## DOMINION

Charles J. Brabin has done a number of things for motion pictures besides domesticating the first movie camera.

He made the first propaganda picture and the first serial. He played Lincoln in "The Life of Lincoln." He directed twenty-seven one-reelers in succession, each in a different country. He took some of his own money, cameramen and some actors, went down in the original moonshine country and had a good time producing "Driven," which proved to be a remarkable bit of dramatic art.

Some day Brabin will write a brochure on "The Dramatic Psychology of Light." He really doesn't need to write it, because "Six Days," his first Goldwyn picture, which is playing at the Dominion Theatre all this week, will be a practical illustration of his ideas.

Back in the early days of motion picture production, Brabin was made by drawing with white chalk on a black board. In such a school Brabin learned the charm and effectiveness of simplicity.

Chalk is out of date for motion pictures, but to-day Charles Brabin is using pencils of light to make his scenes.

He doesn't depend entirely on light for the artistic rooms designed and dressed by Cedric Gibbons give the richness and grandeur of a scene in a super-feature of modern life.

But beams of light from the many pieces of lighting apparatus on the movie stages are being used as more than merely a source of illumination by Brabin. He makes the lights imitate actors in the drama, accentuating, explaining, all but speaking aloud.

In a Wall Street office one man sits behind his boggan desk conversing earnestly with three visitors. To the casual eye four men are holding a business conference.

But Brabin whistles to his lights, marshals a band of brilliant light on the good man and three bands of subdued lights on the bad men and the situation is dramatized in terms of lighting.

And throughout the picture, lights are used to express moods. They are used to express dramatic truth in the hands of the man who directs them.

## COLUMBIA

There are so many elements in "Crashin' Thru" at the Columbia Theatre meriting unstinted praise that it is difficult to pick out any single feature of this thriller.

One might indulge in eulogy of Harry Carey, who is a human whirlwind in this picture, fighting, tearing, fear-mocking fury who laughs at risks and chances death with a smile; or one might praise the skill of Mr. Val Paul, who not only takes advantage of Carey's absolute fearlessness, but seems to think that Western mountains are merely accessories to the motion picture business and forthwith blows one up with dynamite.

"Crashin' Thru" is a most fittingly titled. Carey goes crashing through some of the most hair-raising situations it has ever seen on our good fortune to see on the screen. There is a moment when Volia Vale, playing the feminine lead, lies perfectly helpless under the very hoofs of a thundering, maddened herd of thousands of horses bearing down on her, lashed on by the awe-inspiring brush fire. The swift, left shift with which Carey sweeps down in front of the crazed herd and lifts her from the ground to his saddle was sufficient to lift the audience from their seats.

And this is only one of a hundred other exciting moments.

Virile, vivid drama that sweeps with a mighty rush across the wide-open plain of the sloping West view for interest with a world of spine-shivering thrills in "Crashin' Thru," starring lovable Harry Carey, which is drawing crowds to every performance at the Columbia Theatre. Just released by Film booking offices, this absorbing and stirring photoplay of the West of to-day is an outstanding example of the amount of real entertainment that can be crowded into one hour.

The picture starts off with a bang and speeds through a red-blooded tale of romance and adventure as re-freshing and as welcome as sunshine after a week of rain. Whoever believes that romance is dead in the West will get more than a kick out of this newest Western—he will get a revelation and a new perspective on what constitutes a real screen entertainment.

Carey gives a superb performance, as also do other members of the cast.

FINE COMEDY WILL  
SHOW NEXT WEEK AT  
DOMINION THEATRE

Chalk up another triumph for James Brabin whose production "Ruggles of Red Gap," may be catalogued as exceptionally bright—one executed with a deft touch which makes it usually refreshing on a screen where the brightest comedy gems are among two reels.

Among two reels, Harry Leon Wilson's story carries rich and sparkling comedy, and the picture, which has been realized by Mr. Cruze, whose gift for discovering humor is accurate and sure. As a picture it releases the same fruitful mine—of the time that Martin Luther King made money when he settled down to a life of easy affluence as mapped out by his socially ambitious wife to the glory which his wife becomes reconciled to his uncouth manners.

The incident here is guaranteed to amuse even the most fastidious. "Ruggles of Red Gap" is one of the most entertaining comedy dramas ever produced by Paramount, and will be shown at the Dominion Theatre all next week.

MATT MOORE IN  
CAPITOL PICTURE  
HERE NEXT WEEK

"Matt Moore, who has the role of 'Captain Applejack' in Fred Niblo's new production, 'Strangers of the Night,' showing next week at the Capitol Theatre, was required to wear a wig during the filming of the picture.

The origin of the monochrome aroused much curiosity in the studio, and to establish peace amongst the members of the cast, the director decided to find out what a monochrome is good for, if anything, and why it creates so much trouble. After looking into many books on English folk-lore and their ilk, Mr. Moore discovered that the monochrome was once a badge of honor.

Mr. Moore found that to wear a monochrome was to be a 'stranger' in the land. He had to have it fastened with glue in order to make sure that it would stick when he was to register excitement.

"Strangers of the Night" is the second of the series of Fred Niblo productions presented by Paramount, and distributed by Metro Pictures Corporation. It is adapted from the Sam H. Harris stage success, "Captain Applejack," by Walter Hackett. The scenario was written by Louis L. Lasker and the photography was in charge of Alvin Wyckoff.

ASSUME TARIFF LAW  
WILL BE U.S. ISSUE

Democratic Leaders Plan Campaign For 1924

Washington, Sept. 28.—(By Canada Press).—Democratic leaders continue to plan their battle for 1924 on the assumption that the tariff law as it now stands will be an issue. Some of the speakers at the tariff law issue, Senator Simmons, leading Democratic member of the Senate finance committee, former chairman of the tariff committee, predicted that the tariff issue will be the foremost question of the campaign.

According to the Democratic National Convention, which is being held at a continental hotel in New York, the Fordney-McCumber tariff law has increased the cost of living for the people of the United States from \$2,000,000,000 to \$4,000,000,000 in the twelve months of its operation. It is pointed out that only about 1 per cent of the funds it way into the federal treasury.

Obviously, if the Democrats are able to convince the public of the truth of this, the Republicans will be at a disadvantage in the next campaign.

The Democratic National Committee is also making much of the failure of the tariff commission of the Coolidge administration to do anything effective in lowering rates under the flexible tariff provisions. It says reductions are practicable which would save from \$100 to \$150 a year for each family in the United States.

Obvously, if the Democrats are able to convince the public of the truth of this, the Republicans will be at a disadvantage in the next campaign.

DR. CLEM DAVIES  
IS NOW A GYRO

Victoria Club Preparing  
Special Welcome For GYRO  
District Governor

Rev. Dr. Clem Davies, pastor of the Centennial Methodist Church, was elected a member of the Victoria GYRO Club at last night's business session, and will be introduced at next Monday's luncheon at the Hudson's Bay Building.

R. D. Harvey, who is now practicing law in Duncan, was made an honorary member of the organization, having been one of the most active members of the Victoria Club during his residence here.

Roland Christy having vacated the chairmanship of the civic entertainment committee of the Club, John L. Mara has taken up the responsibility, and Mr. Christy has been elected to the position of secretary.

H. B. McDonald and G. de la Motte were named as delegates of the Victoria Club to the annual banquet and installation of officers of the Vancouver GYRO Club, to take place on October 4.

District Governor, Jesse Warren, who is also president of the Seattle Club, will receive a warm welcome when he arrives in Victoria in the course of his four-day tour of the Pacific Northwestern District, which embraces all GYRO organizations in Alberta, British Columbia, California, Idaho, Oregon and Washington. Members of the Victoria Club are making special preparations for the occasion.

WILL MAKE SURVEY  
ON HOURS OF LABOR

Federal and Provincial Ministers Set Out Objectives  
Commend Minimum Wage Law For Female Workers

Ottawa, Sept. 28.—Unanimous resolutions upon a number of labor questions were adopted by a conference of ministers and officials of the Dominion and Provincial governments which was engaged during the last three days in consideration of the obligations of Canada, arising out of the labor sections of the treaty of peace.

This was stated in a memorandum in regard to the conference issued last night by the Department of Labor. No formal resolution, however, was adopted in regard to the eight-hour day.

Among the recommendations adopted by the conference was one looking to the gradual elimination of private employment agencies, while the adoption of uniform minimum wage laws for female workers was commended to the various provincial authorities.

No Formal Motion

"The draft convention relative to hours of work in industrial undertakings," the memorandum reads in part, "proposes the establishment of an eight-hour day and forty-eight-hour week in mines, transportation, construction work and industrial establishments, as defined in the convention. No formal resolution was adopted in regard to the eight-hour day.

The conference approved the principle of a draft convention concerning the protection of women and children against lead poisoning, and suggested the adoption of a federal law to give effect thereto. It was agreed that if this legislation was found not to be within federal jurisdiction, the various provinces should be requested to enact the necessary laws.

Child Labor

"All the provinces have statutes fixing age limits of children entering industrial employment and the conference concurred accordingly.

"It was agreed that a general survey should be made on the employment during the night of young persons in industry. Most of the provinces already have legislation on this subject.

"A proposal for the limitation of hours of work in the fishing industry to eight hours a day and forty-eight hours a week, was considered, but the conference agreed that action on the subject should be deferred pending action in regard to the eight-hour day in industry and commerce.

"In reference to the draft convention which proposes the prohibition of the use of white lead in painting, it was agreed that the Federal Department of Labor should make further inquiries on this subject and secure co-operation of the provinces in the same.

"The conference accepted the principle of a draft convention concerning the weekly rest day in industry and suggested that the Federal Government should take such steps as may be necessary to insure ratification of the convention on this subject in consultation with the various provinces.

Female Workers

"The adoption of uniform minimum wage laws for female workers was commended to the various provincial authorities.

With reference to the proposals affecting agricultural employment, a resolution was adopted approving of the use of white lead in painting, it was agreed that the Federal Department of Labor should make further inquiries on this subject and secure co-operation of the provinces in the same.

"A draft convention for the extension of workmen's compensation to workers employed in agriculture was referred to the various provinces for further consideration and for survey.

"A recommendation in favor of the development of technical agricultural education was discussed by the conference and it was agreed the requirements of these recommendations were generally met by existing legislation.

"A draft convention concerning the age for admission of children and young persons in employment in agriculture was also under consideration. It was the feeling of the conference that this proposal had but slight application to Canada, and there is relatively little employment of children in agriculture in this country.

The conference was attended by delegates from all provinces except British Columbia and Prince Edward Island.

## TOURIST DEPRECATES DESECRATING COWS

Alert Bay Indian Cemetery Incident Stirs Yakiman

The attention of the Natural History Society has been called by the Victoria Island Publicity Bureau to the condition of the Indian cemetery at Alert Bay, famous as the centre of Indian life, whose totem poles have been the admiration of visitors for a generation. This small village, which is the headquarters of the Kwakwaka'wakw, has a large Indian graveyard.

It appears that A. B. Cline, a Yakima tourist, on July 11, when a passenger on board the Princess Louise, was at Alert Bay. In company with other tourists he was surprised to see half a dozen cows in the cemetery, one of them having just broken a picket fence enclosing an individual grave.

The Natural History Society regards the situation not only in the light of desecration of graves, but as another factor in the destruction of aboriginal property of interest to the public traveling through the inside passage.

## NEWS IN BRIEF

The Victoria-Saanich Beaches and Pools Committee yesterday passed a number of outstanding accounts, and prepared to undertake a few minor improvements to be carried out, as already appropriated.

Fifteen bags of letters and four hundred bags of papers from England arrived at the post office this morning. This mail left Southampton on September 15 by the Ss. Empress of Britain.

An unknown hunter brought in the record bag of the season yesterday, shooting a large buck near Mount Finlayson. The animal weighed 161 pounds dressed, and comprised one of the largest deer seen in local woods for some time past.

A special meeting of officers and members of Royal Review, No. 18, W.B.A. will be held in Harmony Hall tomorrow at 2:30 p.m. The committee for the masquerade ball on October 6 will report, and the ritualistic work of the order will be practiced. All members are urged to attend.

## EVENTS TO COME

Rev. J. Williams Ogden, of Vancouver, will give an illustrated lecture on "Pompeii, the Romance of a Buried City," next Monday at St. Andrew's Presbyterian Church. Mr. Ogden some time ago paid a visit to Pompeii and gathered a great deal of first hand information about the ancient city and its people, and has secured some hundred and twenty lantern slides depicting the district.

## OBITUARY RECORD

The death occurred last night of John Dennison Bishop, aged 65 years, and a native of Sussex, England. Deceased had been a resident of Victoria for the past fifteen years. He leaves a widow and one son at the residence, 521 Langford Street, and was a member of the Sons of England. The funeral will take place on Monday at 2:30 from the B. C. Funeral Chapel, the cortege proceeding to St. Barnabas Church, where Rev. Mr. Smith will conduct the funeral service. Interment in Ross Bay Cemetery will follow.

A resident of this Province for the past forty years, and a native of Ontario, who had been born sixty years ago, Frank Albert Johnson, passed away recently at Bella Coola. Mr. Johnson's death removes another pioneer whose sturdy personality has done much for the locality with which he was identified. He was engaged on the Canadian Pacific Railway construction through the mountains when he first came to British Columbia and settled later in the Chilcotin Valley. He was one of the oldest and most devoted members of the Seventh Day Adventists. His widow, with one daughter and three sons, survive him.

Funeral service for the late Edgar Harold Burton were conducted yesterday afternoon by Rev. Dean Quinlan at the B.C. Funeral chapel. "Peace, Perfect Peace" was sung with much feeling by the large assembly of relatives and friends present. Many beautiful floral tributes covered the casket. The pallbearers were Messrs. E. Shaw, L. Buckle, D. Fairfull, C. F. Banfield, R. Shields and H. Minckler, and interment was made in Ross Bay cemetery.

## MORE POSTAL VIEW CARDS AVAILABLE AT PUBLICITY BUREAU

The Victoria and Vancouver Island Publicity Bureau has obtained delivery of a reprint edition of the popular postal cards bearing colored views of Victoria and vicinity.

The original edition of 60,000 copies of the six varieties of views, was found to be one of the best advertising mediums for the district which has ever been prepared, the free distribution of the handsome view cards being appreciated to the full by tourist and resident alike.

Reports of the widespread mailings which these cards secured, ranging from Australia, South Africa, South America and China to Britain and all parts of Europe and this continent, resulted in the production of a further 30,000 cards, which are now available, without charge, at the office of the Publicity Bureau in the Belmont Building.

## FORESHORE ACTION IS HELD UP UNTIL LAPOINTE ARRIVES

Land Holders Will Not be Disturbed Until Minister Views Situation

No action affecting tenants of land in the False Creek industrial area in Vancouver will be taken until Hon. Ernest Lapointe, Federal Minister of Marine and Fisheries reaches here next week from Ottawa and discusses the whole question with Hon. T. D. Pattullo, Minister of Lands.

Mr. Pattullo stated this morning that he had just received a letter from Mr. Lapointe, requesting that all parties interested in the present dispute over the False Creek foreshore be advised that no action affecting these properties would be taken until he arrived on the coast.

The Minister of Lands stated that he could quite understand the concern of the Minister of Marine and Fisheries in view of the fact that the Dominion Government has exercised authority in a number of instances in False Creek.

The Minister added that in deference to the request of the Minister of Marine and Fisheries, and in view of the fact that this would in no way prejudice the situation, matters would be allowed to stand until after the arrival of Mr. Lapointe on the coast.

Mr. Lapointe will leave Ottawa on Sunday night, direct for British Columbia.

Mr. Pattullo made it plain to-day that the Provincial Government has no doubt whatever about its ownership of the False Creek foreshore.

From recent dispatches, I would say that there seems to be a disposition to before the issue in False Creek, Vancouver," Mr. Pattullo said.

"The recent action taken by myself as Minister of Lands in directing the posting of certain notices had nothing whatever to do with the foreshore in False Creek, which was subject of grant to the City of Vancouver. The notices covered provincial foreshore in False Creek outside of this grant."

The Province has no doubt whatever as to its ownership in False Creek. This was settled by the terms of union and judgments of the Privy Council thereon. That, however, False Creek will be the subject of conversation between the federal and provincial authorities with the approaching visit of the Federal Minister and officials may be taken for granted, but the public should understand that there is no doubt whatever as to the position which the Province occupies in respect of this foreshore."

## ELECTRICAL FIRM LOSES PARTNER

Frank B. Fox, Well-Known Electrician, Died To-day

The death occurred at noon to-day after a short illness, of Frank B. Fox, of Ontario Street, partner in the electrical firm of Fox and Mainwaring. The deceased was forty-two years of age and is survived by his widow, also by his parents, five sisters and five brothers in the Old Country. He had been a resident of Victoria for the past sixteen years, coming here from Winnipeg. He held the office of Past-Master of the 'Britannia' Lodge in the Masonic order. His arrangements are in the hands of the Thomson Funeral Company and will be announced later.

## 'MASTER LASCELLES' GETS BEAUTY PINS

Gold Nuggets From B.C. Make Gift For Royal Baby

Mrs. C. B. McAllister, of Vancouver, who was visiting in Victoria last week, had an unusually interesting experience during her recent visit to England, being received in audience by Princess Mary and "Master Lascelles."

Her account of her visit was most entertaining and was listened to with much pleasure by members of the Henry Hubert Lascelles Chapter, I.O. D.E., in Vancouver, on whose behalf she had presented the Royal baby with a set of beauty pins made from B.C. gold nuggets. A letter from Princess Mary, thanking the members for their gift to her son, was also listened to with much appreciation.

## MOST GRAIN CUT CROP REPORT SHOWS; THRESHING RESUMES

Wheat Running 25 to 55 Bushels an Acre in Calgary District

Apple Yield Reduced in B.C., But Hops Are Best in Years

Winnipeg, Sept. 28.—Grain in the prairie provinces is now practically all cut and threshing is general, according to the crop report issued to-day by the Bank of Montreal.

Reports of conditions by districts show:

Edmonton district—Grain practically all cut, threshing delayed by snow; weather now warm and threshing should be resumed at once. Average yield, average grade.

Calgary district—Cutting about finished; snow delayed threshing; wheat is yielding twenty-five to fifty-five bushels per acre; grading number one or number two.

Lethbridge district—Cutting practically completed with twenty per cent threshed; yield generally good and grading high. Damage by frost to green feed only.

Saskatoon district—All grains cut and threshing of wheat fifty per cent to seventy-five per cent completed. Threshing returns indicate average yield of twenty bushels to the acre, possibly more, of good grade.

Regina district—Wheat threshing in south well advanced. In western part of district yield is a good average and grade high. In the southeast grade only fair, yield from seven to eight bushels.

Winnipeg district—Threshing practically completed in south with disappointing results, balance of province about seventy per cent threshed. Estimates vary but doubtful if average yield for province will exceed twenty bushels wheat per acre. Oats, barley and flax reported better than ten-year average.

British Columbia—All field crops now harvested except roots. Grain yields generally good except Vancouver Island. Potatoes promise a good yield but acreage below average. Root crops improved by rains. Hops best crop in years; tomato crop large, all fruits now coloring fast. Owing to brown core appearing in McIntosh apple and lack of sowing of Jonathans, apple crop estimate is reduced twelve to fifteen per cent; peaches and prunes over. In northern B.C. all crops above average.

## CONSIDER PLAN TO REVISE ROYALTIES ON B.C.'S TIMBER

Changed Conditions Make Timbermen Demand New and Lower Scale of Fees

Revision of the scale on which timber royalties are collected in British Columbia is still under advisement by the Department of Lands, but no immediate reductions in royalties will be made, Hon. T. D. Pattullo, Minister of Lands announced to-day.

Supplementing the announcement already published in The Times that the question of timber royalties was under advisement and might be the subject of legislation this fall, Mr. Pattullo gave out this statement to-day:

"The Government has no intention whatever of reducing the timber royalty fees now being collected. What is agitating the minds of the timber men is that under the statute as it now stands the royalty fees that will be payable during the five-year period beginning 1925 will be greatly in excess of the fees now being collected, and the timber men allege, higher than the situation can stand. This phase of the situation is now being investigated by the Department of Lands with a view to advising the Government as to what action should be taken."

**Timber Men's Scheme**

"It will be recalled that the Royalty Act as it now stands was passed at the instance of the timber men themselves. The argument which they impressed more strongly than any other was that they must have stability of tenure and must know exactly where they stand in order to induce capital to undertake development of the timber industry in British Columbia."

"There is no doubt that the timber industry thought it had made a good bargain and that the Act would work out much to its advantage. The formula adopted at that time, however, did not take into consideration the changing value of the dollar; consequently the Act now threatens to work out very differently from what the timber men anticipated, and to demand a much higher royalty, at least during the next five-year period, than was expected."

**Must Get Revenue**

"The Government is thoroughly alive to the welfare of the industry and its prosperity must not be jeopardized. At the same time a reasonable return must be received from the great timber asset of the Province."

## POLICE WAIVE MOTOR WARNINGS

Police warnings to offending motorists have come to a sudden stop, and prosecutions are the order of the day. In the city police court this morning, Lawrence Goodacre, T. H. Griffith, A. J. Hook, Miss Peggy Lewis, Mrs. Rene Harris, Walter Tapley, G. J. Savory, and Ed Hume were each fined \$5. A. E. Shore, Mrs. E. J. Newhouse and Mrs. Jean Agassiz were acquitted of similar offences, that of leaving cars parked without lights after dusk. No more warnings will be given, say the police, in an effort to check the nuisance of darkened cars after dusk.

The ability to get along smoothly and harmoniously with others is one of the highest accomplishments.

## LABOR IN ENGLAND BECOMES RESTIVE

Plans Demonstrations to Support Denmark "Work or Maintenance"

London, Sept. 28.—Labor is becoming increasingly restive in the face of prolongation of the Ruhr problem and the spread of unemployment. With a view to trying to get its demands met, labor is doing its utmost to force the government to convene Parliament, which has adjourned until November 17. A joint meeting of the Trade Union Council and the Labor Party executives yesterday passed a resolution urging calling upon the Premier to summon Parliament immediately.

Concurrently, the unemployed workers' committee is organizing agitation to force the summoning of parliament. Hundreds of thousands of leaflets are being printed, with which it is proposed to flood the industrial areas of the country.

**Work or Maintenance**

These papers urge the workers to demand "work or full maintenance at trade union rates," and insist that Parliament meet to consider their grievances.

"Force Parliament to meet," says the leaflet. "We shall then follow up with other activities to compel them to do something effective."

Public demonstrations on a large scale, it is said, are to accompany the distribution of the pamphlets. In the meantime, it is said that the Government has no intention of advancing the date for re-assembling of Parliament.

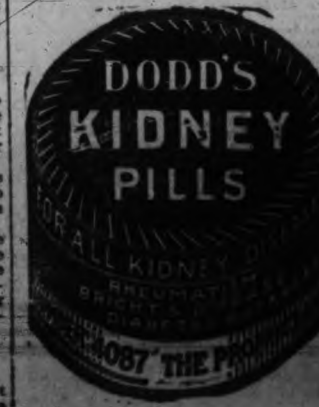

**FIRE DESTROYS HAY**

Nelson, B.C., Sept. 28.—Fire last night destroyed a hay barn and five

## SAYS IMMIGRANT IS EXPLOITED FOR LABOR AND RIGHTS

Ottawa, Sept. 28.—That the immigration policy of Canada was likely to be regarded as an economic question, while in reality it was a social problem, was the contention of Rev. George Daly, of Toronto, author of "Catholic Problems in Western Canada," in addressing the Catholic Truth Society here last night.

Father Daly asserted that Canadians on the whole had a false appreciation of the immigrant who was often shamefully exploited for his labor, rights and political privileges. He also maintained that the religious rights of the immigrant should be properly cared for.

## West's and Vets Will Open Their Season To-morrow

Two First Division Clubs Will  
Make Their Debut; Three  
Games Are on Card

There will be a full card of soccer games to-morrow afternoon with four First Division clubs in action and two of the Second Division teams showing their wares.

The games have been arranged as follows:

**First Division**  
Veterans vs. Navy at Beacon Hill, Referee, E. Lock.  
Victoria West vs. Sons of England at the Royal Athletic Park, Referee, Stokes.

**Second Division**  
Princess Pats vs. Esquimalt at Work Point, Referee, Oliver.  
The First Division games will start at 2 o'clock and the Second Division game at 3:30 o'clock.

**A Real Opening Game**  
Much interest is being taken in all three games to-morrow. Only two of the six teams have been seen in action so far this season and the fans are anxious to catch a glimpse of the rest of the clubs.

The Veterans and Victoria West will step about and display their form for the first time to-morrow. The Vets are highly-touted and are backed by their supporters to win the league. They will have to dispose of the Navy to-morrow to loom as a pennant possibility for the Sons of England, who are the blue-jackets yesterday.

The Wests will not put a very strong team on the field due to the absence of a number of last year's stars, but Manager Jack Youson announced this morning that "we will be stronger next week." He intimated that several new players would be signed and it looks as though the Wests intend to make another strong bid for the championship, which they have won for the last two years.

**Sons at Present Lead**  
The Sons of England will give the Wests a hard game to-morrow. They are at present leading the league and figure that they are strong enough to take the measure of the green-shirts.

It should be an interesting game. The Navy is determined to win their first game to-morrow and assure the Veterans of a rattling good match.

**Second Division Opens**  
The Second Division will stage its opening game when the Princess Pats and Esquimalt will hook-up at Work Point. This game should provide plenty of action.

Some of to-morrow's teams will be as follows:

West—Goal, Shandley; backs, Chester and Baker; half-backs, Thomas, S. Shetler, and Popham; forwards, J. Sherret, Mulachy, Peden, Muir and Waddington.

Sons of England—Goal, Hetherington; backs, Tuckwell and Church; half-backs, Dyer, Longley and Tuppman; forwards, Smith, Essler, Southern, Price and Shanks.

## PLAYS TO-MORROW

"JIM" ANDERSON

## Record Gallery

Will Look on at

Tennis Matches

Australian Davis Cup Team

Will Play To-morrow at

Victoria Courts

Tennis enthusiasts are awaiting

with interest the referee's call "play"

at the Victoria Lawn Tennis Club

when the finest exhibition of tennis

that has been given in this city will

be opened.

The Australian Davis Cup team,

captained by "Jim" Anderson, will

be here for the day. The players will

arrive on the morning boat and will

be taken in hand by the officials of

the Victoria Lawn Tennis Club. In

the afternoon they will perform on

the courts for several hours.

"If we have a fine day I think we

shall have a record crowd," says

Thomas Leeming, president of the

club this morning. "There is a strong

demand for tickets and the matches

should be exceptionally fine. We hope

to have six or seven matches of ten

sets each and this will give all the

Australians and our most prominent

players a chance to perform."

**Hawkes May Not Play**

Mr. Leeming was waiting for word

from Mr. Anderson this morning as

to whether members of this team would

play. It is possible that J. B. Hawkes

will not wish to play, owing to the

fact that he lost his father in the

Japanese disaster. McInnes and

Schlesinger, two of the most promi-

nent youngsters in Australia, however,

will play.

Victoria will be represented in the

exhibition by Keith Verley, the British

Columbia singles champion; Ber-

nie Schwengers, former member of

the Canadian Davis Cup team, and

Canadian singles champion; H. G.

Garrett, former Alberta and Pacific

Northwest sectional singles cham-

pion; "Marsh" Gordon, a prominent

local star, and Johnny Proctor,

looked upon as one of the best lads

this city has ever turned out.

Until word has been received from

Mr. Anderson it is not known how

the players will be paired.

**Mixed Doubles**

If arrangements can be made a

mixed doubles will be played, with

Miss Marjorie Leeming, British Co-

lumbia and Oregon champion, playing

on one side and Mrs. J. H. Rickaby

on the other. It is hoped that mem-

bers of the Australian team will pair

with them.

The tennis will undoubtedly be of

the finest and most sensational char-

acter. The court has been taken care

of and will be lightning fast.

The weather man holds out for a

fine day to-morrow so that the Vic-

toria courts should be the scene of

a fine sporting event.

# Hudson's Bay Company

INCORPORATED 2ND MAY, 1870

# THE TIMES DAILY PICTURE PAGE

## CHATEAU FRONTENAC, QUEBEC.

In accordance with the Act passed in Parliament, 1874, Money, Jewels and other Valuables must be deposited in the Safe, otherwise the Comptroller will not be responsible.

NAME

RESIDENCE

Time

*Richard P.*

**FORGETS.**—When "Lord Renfrew" registered at the Chateau Frontenac, Quebec, he forgot, for the moment, that he was traveling incognito, and signed the name by which he is best known.

**INDIAN CHIEFS EXTEND THE HAND OF WELCOME TO THE PRINCE.**—One of the most pleasing incidents in connection with the arrival of Lord Renfrew at High River was the exchange of greetings between the Prince and two chiefs of the Stoney Indians who are seen in the above photograph extending their hands as the Prince approaches. On the left, waving his hat, Prof. Carlyle, Manager of the E. P. Ranch.

**BARGAIN FOR EXCHANGE OF GIBRALTAR FOR SPANISH MOROCCO.**—The revolt of Spanish army officers is said to have been hastened by the discovery that the Government was negotiating with the British Foreign Office with a view to giving Spanish Morocco to Britain in exchange for Gibraltar. Gibraltar has been in British hands for 219 years. It is only three miles long and three-fourths of a mile wide. The Rock, 1,400 feet high, dominates the entrance to the Mediterranean. Spanish Morocco has an area of about 10,000 square miles, being 225 miles long and fifty miles wide. Its chief seaports are Melilla, Larache and Ceuta. It has a population of nearly two millions. Tangier is not really a part of Spanish Morocco and is under international control, which has been a failure.

**MAJOR GEORGE WASHINGTON STEPHENS,** former Harbor Commissioner of Montreal, who has been appointed by the League of Nations Council to succeed D. R. Waugh, of Winnipeg, resigned, on the Commission governing the Saar Valley.

**GLUTTONY WORST EVIL.**—Dr. J. P. Buckley, of Los Angeles, retiring president of the American Dental Association.

Recently, at a convention of 10,000 dentists here, he presented his theories on what he termed the most significant of all questions viewed from the broad standpoint of health. "Those who from habit or disease have learned to eat less daily than they heretofore have done, now realize with surprise how little food, properly masticated, is necessary to maintain health," he says. "Gluttony is one of the worst and most pernicious habits of the times. None can deny that the liquor traffic has ever been the curse of the ages. It has caused more misery, suffering and death than all the pestilence and wars that were ever known; and yet, gluttony to-day is claiming more victims than drunkenness ever did."

**KING TUT.**—What that poor monarch has to stand for the latest is these King Tut pyramids, worn as a beach costume at Allassio on the Italian Riviera.

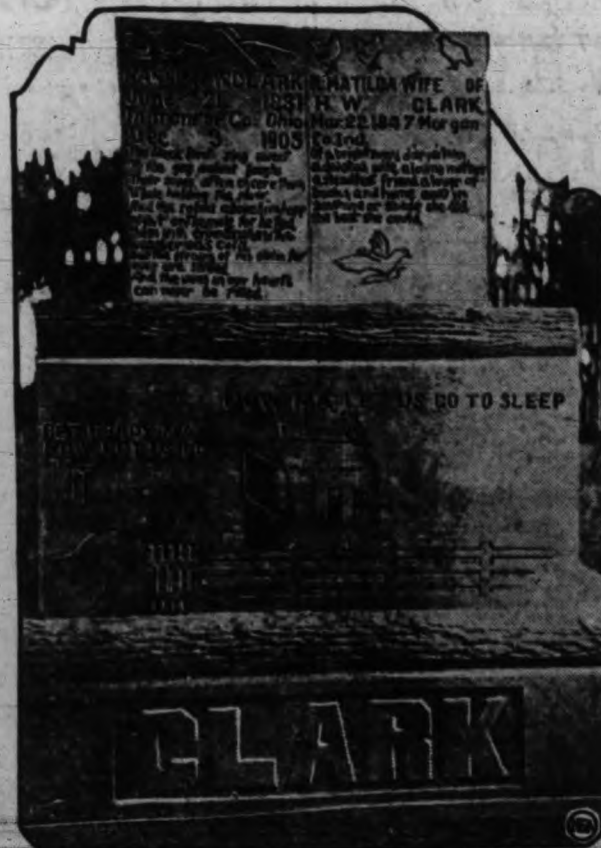

**DAWG-GONE—ANOTHER JOB.**—No doubt that's what this British huli is thinking about. Lugging a heavy golf bag over the links and chasing lost balls on a hot day is sure leading a dog's life. Photo taken on Bellingham golf course in England.

**GOVERNOR WALTON,** of Oklahoma, is in the limelight through his efforts to suppress the Ku Klux Klan.

**PLEAD FOR DIVERSION OF WATER.**—Trio of Chicago men, who came to Toronto to put strong case for water from Lake Michigan to serve sewage disposal system. Left to right, W. J. Healy, President Chicago Sanitary District; E. E. Adcock, counsel; and G. M. Wisener.

**GRIEF OF A FATHER.**—The most extraordinary monument in Illinois is in the rural cemetery at Allerton, Vermillion County. Erected by a grief-stricken father over the body of his 15-year-old daughter, it shows a reproduction of the old homestead, farm animals, and many of the childish expressions of the dead child.

**STIRRING GERMAN NATIONALISM.**—The dedication of monuments to dead German war heroes, and the observance of patriotic holidays, have been made the occasion for the stirring up of German nationalistic feeling. General von Ludendorff has been the leader on many such occasions. Photo shows him (right) with Prince Henry, brother of the former Kaiser, at the dedication of a monument to fallen aviators in the Rhone mountains.

**"AND THEIR TANKS INTO TRACTORS!"**—Here is shown the biblical quotation: "They will beat their swords into ploughshares and their spears into pruning hooks." Army tanks are used in France as tractors to till the soil.

**ESCAPED DESTRUCTION.**—Fire which took several lives and destroyed many buildings in Berkeley, Calif., beautiful residential and university city, did not consume the City Hall. It is reported from the disaster zone. This building is one of the most pretentious city halls in the country, one of the "sights" of the California city.

**RUINS OF THE TOWN OF ITO,** in the Izu district of Japan, near Tokio. This region suffers heavily in the earthquake.

## SCHOOL DAYS By DWIG

## ASQUITH PAINTS DARK PICTURE OF GREAT BRITAIN

Compulsory Idleness Reducing Industrial Efficiency, He Says

Leader of the Independent Liberals Inaugurate Autumn Campaign

London, Sept. 28 (Canadian Press cable)—Independent Liberals were present in force at the National Liberal Club last night when former Premier H. H. Asquith and leader of the Independent wing addressed the meeting and inaugurated the party's autumn campaign which will embrace about 3,000 meetings to be held throughout the country.

Mr. Asquith painted a dark picture of present-day political and domestic conditions and declared that the domestic situation was of as great delicacy and perplexity as any in his long experience could remember. Compulsory idleness everywhere was reducing industrial efficiency.

**Endorses League**  
Referring to foreign affairs Mr. Asquith said the League of Nations had already more than justified its existence, but if it was to continue respected and trusted by the world it should not let the settlement of the Janina affair between Italy and Greece rest with the decision of the Ambassadors' Council, which he de-

scribed as astounding. The Ambassadors' Council had not enhanced its reputation in this connection and he hoped "we have seen the last of it." He strongly emphasized the view that two things of vital importance at stake were the sanctity of the covenant and the authority of the league itself.

**Deplores Protection Strides**  
Discussing the mid-European position, Mr. Asquith declared that passive resistance in the Ruhr had finally succumbed, but mischief had been done.

On the question of land reform and land taxation, the ex-Premier said the Liberal object was not the imposition of fresh taxes, but a redistribution of the existing burdens. He deplored the advance of the protectionist movement at home and abroad for the past few years. A section of the wool trade, and other great manufacturing interests as well as agricultural interests, were now asking for a protectionist tariff. He strongly sympathized with the difficulties confronting the agricultural interests, but the protectionist movement was a large portion of the profits.

**Inter-Imperial Trade**  
Liberals, said Mr. Asquith, were as desirous as anybody for the growth of inter-imperial trade but he did not think that an imperial preference tariff would bring about the desired aim of doing more business inside than outside the Empire. Defining the imperial preference as an ideal of a self-sufficient and self-sustained Empire, he described this as a mischievous chimera, which if brought into existence would have no real value to Great Britain or the world.

Developing his free trade argument, Mr. Asquith said it was the financial stability of free trade, and not the stability of the relative instability of all other competing countries which had enabled the allies to finance the war and carry it through.

## TWENTY-FIVE YEARS AGO TO-DAY

Victoria Daily Times, September 28, 1898

Col. Gregory has received intimation from Ottawa that Lord Seymour will be in the city on Monday next.

F. Napier Denison, of the meteorological office here, has been in Vancouver establishing a system for announcing to the inhabitants of the Terminal City the hour of noon.

The homeward rush from the Yukon fields remains unabated. The Alpha arrived here last evening with a large number of passengers.

## Yellow Cab

## Guards Public Welfare

Dainty gowns and costly clothing will never suffer harm if you patronize a YELLOW CAB. Protection of wearing apparel from grease, grime and dust has been reduced to an exact science.

Every twenty-four hours each YELLOW CAB is thoroughly scrubbed with soap and water. After its bath it is disinfected. Throughout the day the driver is constantly alert to keep his car dustless and spotless.

You can see, feel and smell the cleanliness of a YELLOW CAB. And in other ways unseen it is given equally important attentions which make for safety.

YELLOW CAB experts, like the man with the hammer who tests the wheels of railroad cars, nightly inspect every screw, nut and bolt to make certain that the car you ride in is staunch and sound.

Have you ever marveled at how seldom a YELLOW CAB breaks down and how quiet and smooth it operates? YELLOW CAB believes that an ounce of prevention is worth a whole ton of cure where public safety is concerned.

These are but a few of the benefits resulting from the scientific methods which constitute YELLOW CAB organized service.

Hail Them Anywhere

## FILMS EGG INSIDE AS CHICK HATCHES: SHOWS CUT HEALING

Microscopic Movie Camera Snaps Picture Every Ten Minutes of Process

Records Action Invisible to Eye; To Try it on Cancer Cell Changes

Marvelous Instrument Developed by Dr. Herm is Great Aid to Science

New York, Sept. 28.—The process of making motion pictures through a glass window set in the side of a fresh egg and tracing the changes in the stages of incubation until the heart of a chicken is beating was demonstrated yesterday at the laboratory of Dr. Charles F. Herm, formerly of the American Museum of Natural History.

Driven by a fine clock, the camera automatically flashes strong light every ten minutes through the glass window into the interior of the egg and snaps a picture. This process goes on night and day for thirty-three hours, at the end of which time the heart of the chick has been formed and started to work. The glass window is inserted after a section three-quarters of an inch square has been removed from the shell. The window is sealed in place by paraffin and does not interfere with the development of the egg in the incubator.

Taking microscopic pictures automatically, every ten seconds, every two minutes, or at any interval desired, this machine can also record the details of chemical action, the action of white corpuscles and the growth of new tissues in the healing of wounds, the building up of fine crystals from solutions, or the gradual changes inside the egg of a fish from the original clear fluid to the fully formed baby fish.

Operated in an observation night and day for two or even three weeks this camera has made records of scores of biological and chemical processes hitherto incompletely observed.

**To Film Cancer Action**

One of the experiments soon to be filmed is that of placing a group of healthy cells and a group of cancer cells together to show the attack by the malignant bodies. The camera is a development from an earlier type used by Dr. Herm to assist Dr. Alexis Carrel in studying the protecting and healing action of white corpuscles in wounded tissue. It is planned to use the instrument for the diagnosis of many obscure plant diseases.

A series of scientific and educational films made at Dr. Herm's laboratory at Pelham, was shown Saturday at the Pelham Theatre to a party of scientists and others, including Dr. William Firth Wells, biologist of the State Conservation Commission, and George N. Pindar and Harry F. Beers of the American Museum of Natural History.

One of the most interesting of these films was a microscopical study of the life cycle of the oyster. This film is expected to have a practical bearing on the problem of restoring oysters artificially and using their eggs for seed to stock beds from which the oysters have disappeared. The film was made under the direction of Dr. Wells, who has worked out a system of making oysters lay billions of eggs for the State as a means of restoring the breed in parts of the Long Island coast and other places where spells of bad weather, parasites or other enemies have temporarily wiped out the shellfish.

**Baby Oyster's Life Perilous**

The oyster lays eggs by the thousands and scatters them in an unfertilized condition in the water. The male oyster impregnates the waters with great quantities of sperm which are individually so minute as to be difficult of detection by the microscope. The chance meeting of the two varieties of cells fertilizes the eggs and starts the young oyster on its career which is ended ninety-nine times out of a hundred by predatory minnows. Those which escape, however, are still numerous enough to keep the oyster industry flourishing.

Dr. Wells improved on nature by opening the female oyster during the egg season and scooping out the eggs by the million and raising the eggs in water which has been intensively fertilized by the male. The film showed the process from the beginning. The floating sperm met the floating egg, attached itself to the egg membrane and finally pierced through to the interior and awakened the vital processes.

Cilia or whiplike processes soon appeared with which the new hatched oyster rowed itself through the water with great speed. Just how the minute oyster larva propelled itself was not known before. It shot about with a speed which prevented the movement of the whips to be observed by the naked eye.

**Gets Shell, Lives Happy**

Taking the pictures through a microscope at high speed and then showing them at low speed, however, made the rowing motion discernible. After acquiring the whips which enabled it to charge in all directions for food the oyster gradually acquired one shell, then another, and its after life was uneventful.

Another film taken over a period of weeks by this patient camera was the biological history of an infusor of hay and water. Bacteria first developed in such quantities as to cloud the water. The water cleared, at the protozoa, the smallest animals, multiplied and ate up the excess bacteria. Then appeared the rotifers, a little more highly organized, which live on protozoa. But the rotifers fattened themselves on the protozoa only to become themselves the prey of various water worms. Hundreds of amazing feats of gluttony were exhibited with one drop of water for an arena.

The power of the machine for chemical and scientific analysis is now being tested on the problem of discovering the manner in which certain acids attack wood fiber to reduce it to pulp for paper making. The camera can catch movements much faster than the eye can follow them and never gets tired, so that a finer and more complete observation can be made of some processes than is possible to a scientist looking

through a microscope and storing impressions in his memory. Many of the films already taken are concerned with scientific research of this type and others are for teaching science in schools.

## PRE-TYPEWRITER DAYS RECALLED

The current observance of the fiftieth anniversary of the introduction of the typewriter machine revives recollections of the army of male pen copyists of the years previous to the advent. A bold, round chirography was a prerequisite, but even at the low cost of living then the miserable scale of wages of from \$5 to \$10 a week was paid, although some of the product was next to copper plate in regularity.

Many of the men were English, Scotch or Irish, by no means of low intelligence, some brought up in affluence, but as younger sons under the rule of British primogeniture were forced to seek any form of general employment. Among them I can recall types with some variations similar to Newman Noggis, Dick Swiveller, Bob Cratchett, Tom Punch or others portrayed by Dickens in such service, says a writer in The New York Herald.

Some of the work was occasionally uneven in appearance through excessive potatoes, to which the penmen were inclined as relief to the dreariness of an occupation without promise of advancement. Aside from the offices of lawyers or where long specifications were drawn, they were occupied in commercial houses for fair records, trade reports, lists or common correspondence, the times antedating the dictated letter, which, by the way, many of them could take in longhand if we are to judge by the "haltings," "recalls" or "take backs" disavowals and slowness of the average dictator of to-day.

Very rarely in mercantile houses were letters written by others than the principals. The common practice was to pencil the intent, of which the subordinate made a fair copy, which was signed by the other, preceded invariably by "Your obedient servant," even when a dun for an overdue account was the subject. This draft was planned to the letter to which it was an answer, or if initiative, it was folded, dated, indorsed and placed in a pigeonhole, alphabetically arranged, the contents of which were removed at irregular intervals, tied with red tape and placed in boxes. Very few concerns had indexed letter press books, and correspondence was generally in confusion.

I can recall the derision of many before trial of those who saw announcements of existence and offerings of a writing machine, and the despair and abandonment of others in their efforts to operate such without proper instruction.

### SOLD

Jones was taking his holiday motoring about the country. At least, he told his friends that was what he was doing.

The "car" had cost him thirty pounds. Slowly and painfully it reached the limit, reaching the top of each ascent just when it seemed that the rickety engine would give out altogether. Every time the solitary brake was applied there were wild shrieks of protest from some part of the mechanism, and altogether Jones was fed-up with his "bargain."

Presently he came to a gate where tolls were collected.

"Half a crown for the car, sir," said the gate-keeper.

Jones looked up with a pathetic smile of relief.

"Sold!" he exclaimed, thankfully.

There is no regret quite so keen as the regret that you didn't try harder to win.

# Offering Red Hot Bargains Makes This Stock Melt Away!

People will buy if the prices are right—THIS SALE PROVES IT. A Week ago this store was loaded with thousands of dollars worth of good honest quality Men's and Boys' apparel. To-day, much of it has just melted away before the onslaught of folks who were eager to buy at our down-to-bedrock prices.

But still the stock is top heavy, and much selling remains to be done. Depleted lines have been regrouped and repriced at still greater reductions. New goods have been unpacked and because they are not wanted they have been thrown on the sale tables at invoice prices. This is a chance in a hundred to buy dependable clothing at minimum prices.

**Idle  
Bond Coupons**

Do you clip your bond coupons on the exact date they become payable? Bond coupons represent money and if you do not cash them promptly you are allowing your earnings to remain idle.

A good plan is to deposit your coupons in a Savings Account immediately they become due. By so doing your interest begins to earn more interest, compounded twice yearly.

Either for the purpose of depositing your coupons or for their encashment, you are invited to utilize the nearest branch of this Bank.

## NOTED CONTRACTOR DIES AT ST. PAUL

**Grant Smith Was Example of  
Self Made Super-Contractor**

The death is announced from St. Paul of Grant Smith, who for many years was closely identified with contracting on this Coast. He recently went to St. Paul on a business trip.

Mr. Grant Smith's closest association with Victoria was during the years the harbor works were under construction, when his firm, Grant Smith & Co., and McDowell Ltd., held a large pier contract. The firm also built the Great Northern docks and station in Vancouver. He had in hand a traffic bridge at Revelstoke for the provincial authorities at the time of his death, and also was the contractor for the new large hotel at Seattle.

While of late years Mr. Grant Smith, who was a big man physically with a genial personality, was identified with general contracts for public works, he made his name in the West as a railway man on both sides of the line. Extensive contracts were taken on the Canadian prairies during the years 1898 to 1911, and on the railway running out of the West and Minneapolis to the Northwest.

Recently Married  
Mr. Smith supervised the construction of two of the pipe lines for the Seattle water department, conveying water from the Cedar River reservoir to Seattle. He was instrumental in the building of much of the Northern Pacific and Great Northern railroads through Washington, Idaho and Montana.

Another achievement of Mr. Smith was the building of a large part of the Catskill aqueduct which carries New York's water supply from the mountains. He also built part of New York's subway system, and the United States navy hangar at Lakehurst, N.J.

Eight weeks ago he was married to Miss de Ette McAuslan, University of Washington student, and daughter of Mr. and Mrs. J. A. McAuslan, 1909 Fourth Avenue, Seattle. They returned recently from a honeymoon in the Hawaiian Islands.

He knew every angle of the contracting game.

At one time his business was so extensive that he was practically always away from home on his private railway car.

While his interests embraced so many objects he had a great grasp of detail, and knew exactly the percentage progress on all his contracts. Of late years the firm had given special attention to office building contracts in the larger cities of the West.

**DOMINION WIDE  
CAMPAIGN FOR  
CHURCH UNION**

**Forward Steps Taken at  
Representative Toronto  
Meeting**

**Enthusiasm in West Quoted  
as Augury of Success**

Toronto, Sept. 28.—Metropolitan Methodist Church was the scene of a gathering last night that will become historic as one of the great forward steps taken in connection with the bringing about of the United Church of Canada, when a meeting was held of the joint-union committee of the Presbyterian, Methodist and Congregational Churches, some eight members of the three denominations being in attendance.

Special importance was attached to the gathering in that it was the first meeting of the joint commission since it had become empowered to act and issue. Its membership at present is made up of about thirty Methodists, about thirty Presbyterians and sixteen Congregationalists who had journeyed to Toronto from all parts of the Dominion.

Dr. Pidgeon presented the report of the Presbyterian committee as to the action of the last General Assembly which had decided to proceed forthwith with the consummation of union in terms of the proposed legislation.

For Methodists  
Dr. Moore reported on behalf of the Methodist committee that the general assembly had approved the principle and general form of the proposed legislation.

Dr. Warren, who reported on behalf of the Congregational Union of Canada, said that the Congregational Union had taken similar action and that the overwhelming majority of churches throughout the country had favored the union.

A report sent by Rev. John Reid from the union churches of the West which was read by Dr. Chown stated that union church conferences in the West had been formed on the basis of union and would merge into the United Church upon its consummation.

West Enthusiastic  
Rev. Dr. R. J. Wilson, who, acting under instructions of the joint committee, had visited the West and organized provincial committees with a view to holding a conference on the spiritual issues which lay at the root of the idea of church union, said the enthusiasm which the idea of a spiritual conference had gripped the West was an augury of the success of the movement.

The holding of conferences for the various provinces will be considered. A Dominion-wide programme of information and inspiration will be carried on during the Winter, when the vision and task of the United Church of Canada will be presented to the people of the three churches.

**PRINCE LOSES ONE OF  
FAVORITE MOUNTS**

London, Sept. 28. (Canadian Press cable).—One of the favorite hunting mounts of the Prince of Wales, which cost £1,000, had to be destroyed yesterday owing to injuries it received while being exercised at Melton Mowbray, Leicestershire.

## ANOTHER B.C. FIRM OPENS IN VICTORIA

**M. Moss Made Island Sales  
Manager For B.C. Brush  
Manufacturing Firm**

Maurice Moss, well-known in this city, and lately connected with the Fuller Brush Company, of Hartford, Conn., U. S. A., has now accepted the position of sales manager for Vancouver Island on behalf of the B.C. Brush Manufacturing Company, Ltd., of New Westminster.

MAURICE MOSS.

B.C. This company produces sanitary household toilet and other brushes of high quality, which demonstrates Mr. Moss's contention that a product of this description can be manufactured within the Province more economically to the consumer, and at the same time retain money in British Columbia.

By the courtesy of Messrs. Angus Campbell & Co., ladies'ware store, Government Street (who have kindly consented to display the brushes), Mr. Moss and Mr. Kenyon will be in the store on Saturday next from 10 to 12 a.m. and 2 to 5 p.m. to demonstrate the merits of the goods.

Mop and brush handles used by this firm are made from British Columbia Maple, and every brush is made in the New Westminster Factory.

Five hundred free sample brushes will be given away on Saturday, so that the public can prove the worth of "Made in B.C." brushes in their homes.

**LOCAL WOMAN  
MASTERS USEFUL ART**

**Mrs. A. S. Innis Makes Hand-  
some Garment From Raw  
Material**

A sheep meekly cropping the sun-dried grass at Ten-Mile Point would no doubt be surprised to know that it occupied a prominent niche in the industrial history of this Province. Yet when its fleece was summarily shorn this Spring the first momentous step was taken. The rest of the story is soon told. Mrs. A. S. Innis, of Dallas Road, through the inspiration of Mrs. Dennis Harris, was impelled to buy the fleece, and herself, washed, carded, dyed and spun it, and finally knitted it into a fine jumper. Heather mixture, with a border of delicate blues and greens, the jumper is a very smart and destined to be a "joy forever" to its prospective owner, who lives in England.

Mrs. Innis had never touched a spinning wheel until last Christmas, so her achievement is all the more remarkable.

**RACE SWEEPSTAKE  
PROMOTERS FINED**

**Terms of Imprisonment May  
be Imposed, Says English  
Magistrate**

London, Sept. 28. (Canadian Press Cable).—In connection with the Manchester November handicap sweepstakes, some police court cases were heard in Manchester yesterday.

The prosecution in a case where the promoter of an association was charged with a violation of the law in selling sweepstakes tickets, stated that there had been an outbreak of such promotions in consequence of the decision given in the Otley sweepstake case last June, when the magistrate dismissed the case on grounds that the prosecution had not proved that the defendant had sold sweepstake tickets.

Numerous Summonses  
The magistrate at Manchester yesterday said it might be necessary in cases of huge sweepstakes to impose terms of imprisonment on the guilty ones, but in this case it would be unjust to do so, owing to the prevalent belief that club sweepstakes were legal. He fined the promoter ten pounds, and his clerk twenty shillings for selling tickets. There were numerous summonses in connection with the case, but they were withdrawn.

In a case where sweepstakes were promoted by the Manchester Committee, two defendants were fined five pounds and another defendant was fined twenty shillings.

The prosecution stated that it was intended that everybody engaged in the sale of sweepstakes would be proceeded against, without regard to the political faith of the accused.

RELATIVE VALUES  
The toilet plates along the road, the cynic haunts and snickers. One man who helps to pull the load is worth a thousand kickers.

—Boston Transcript.

## TO BUILD LOGGING RAILWAY INTO THE RENEW DISTRICT

**Canadian Puget Sound Com-  
pany Shows Confidence in  
Island Timber**

Construction of thirty miles of logging railway from Sooke Harbor through Jordan River into the Port Renfrew area is proposed by the Canadian Puget Sound Lumber and Timber Company.

Announcement of this plan was made to The Times yesterday by W. D. Connor, president of the company, just before he left for the East. He has just completed a periodical visit.

Mr. Connor indicated that the line, under the plans of the company, would reach tidewater at some point near where the old company had commenced this char-acter-acter at Sooke Harbor, but the company would not otherwise be able to make much use of the original undertaking. The line, which was acquired when the company was formed, runs along the coast to Jordan River, the principal bridges entailed being at Coal Creek and Jordan River. That distance is about twenty-one miles, and the balance of construction will then be practically straight northerly, into the valuable limits held by the company, which were acquired when the present organization came into being.

The company has been extending its operations steadily since re-organization, and its mill equipment here has been systematically improved.

**APPLIES ANCIENT  
DESIGN TO MODERN  
INDUSTRIAL ART**

**Dr. Harlan Smith Here After  
Field Work at Bella Coola**

**Prehistoric Rock Carvings  
Give Message of Native  
Craftsmanship**

The archaeology of Canada is neither a moribund thing to be pondered over by scientists, nor to furnish strange objects for the casual admiration of tourists to museums, but a vital contribution to practical and industrial development.

That is the message Dr. Harlan I. Smith gave to The Times yesterday in a sketch of the result of his investigations into the native rock messages and inscriptions which for several Summers have engaged his attention at Bella Coola. Within a few yards of where Sir Alexander Mackenzie first looked on the waters of the Pacific after his historic trans-continental journey, the well-known anthropologist, who now is engaged by the Geological Survey of Canada, has driven farther by motor car this Summer than ever before.

He mentioned the name of F. M. Brewster as the man who has recently taken him on the remarkable journey, which disclosed new fields of exploration.

Dr. Harlan Smith has continued his investigations into the petroglyphs which aroused so much interest in the first discovery some two years ago, and has found traces of others which will require examination in the future.

New Publication  
The practical value of his work, in which he has been greatly aided by his daughter, who accompanies him here, is shown in the publication recently of an album of Prehistoric Canadian Art, published by the Victoria Memorial Museum authorities, Ottawa.

It contains eighty-four full page plates of line drawings of prehistoric Indian art. These carvings, it is thought, would be useful to Canadian designers and manufacturers who wish for distinctively Canadian articles. There are about 1,000 factories using decorative designs in Canada, covering about 175 different industries.

Protect Totem Poles  
Interesting the business world in the application of the past to the present, Dr. Harlan Smith has a hobby in connection with Indian art, and that is a hobby which he points out would bring dollars and cents to the Canadian railways. It is to buy the Indian totems and similar remains of the recent past, vest them in government control, and preserve them with kerosene and paraffin, so that the Indians could no longer sell their totems to strangers. Instead of the public going to museums to see these memorials of the past, he asserts, they would go to the scenes where the objects were raised, thereby encouraging travel on the railways and steamships. He thinks the Alert Bay case should be a lesson for all time.

Dr. Harlan Smith, who was registered at the James Bay Hotel while here, renewed acquaintances with his old friend, Curator Francis Kermode, at the Provincial Museum.

HONOR AWARD TO  
PROF. JOHN CURRIE

London, Sept. 28. (Canadian Press cable).—Professor John Ronald Currie, of Queens University, Kingston, Ont., has been appointed to the chair of public health in Glasgow University.

QUITE ANCIENT  
Someone has said that an old man is simply a man twenty years older than ourselves. This little joke from Punch is evidently founded on that observation, which, if you will consider it, is an acute one.

"And how's dad?" asked the visitor of a small friend of about eight years.

"Pretty well, thank you, considering," replied the boy.

"Considering what?" inquired the visitor, puzzled.

"Well, he's getting a bit old, you know," replied the boy. "He'll be thirty to-morrow."

## FINDS RARE BEAUTY IN INDIAN ART WORK

**Dr. Harlan Smith Proves De-  
signs Can be Developed in  
Modern Manufactures**

Dr. Harlan Ingersoll Smith, engaged by the ethnological section of the Canadian Geological Survey, Dominion Government, for the past few years, lectured here last night to the members of the Victoria Natural History Society, and a large body of Normal School students, who are interested in the work at present being undertaken by this noted anthropologist. He was cordially thanked for his address.

Dr. Smith gave his address in the Provincial Museum, and illustrated his talk with a large assortment of lantern slides, both photographs and drawings, of Indian art work. Among the slides shown were some excellent reproductions of petroglyphs, Indian pottery work and modern attempts at imitation.

The subject of Dr. Smith's address was "Canadian Archaeology, in its Relation to Canadian Trade." He pointed out that at some time, which he hoped would not be far remote, Canadian art would become distinctive with designs based upon the Indian work which he was at present engaged in unearthing. In his opinion, there was rare beauty and artistic conception displayed in the pottery and designing of the Indians of the continent, both on this Island and elsewhere.

Dr. Smith believes that there is a future for the Indian "motif" in the world's art. He believes that Canada can make a valuable contribution to this art through the scarcely recognized treasures which the Indians have handed down. The success which has marked Dr. Smith's first efforts at introducing the quaint and pleasing work of the North American redskins in the manufacturing of various commodities, is significant, and he hopes for further good fortune.

Dr. Smith, in his address last night, traced the art of the Indian from the Pacific Coast to the shores of New Brunswick, showing the various gradual changes which the types of design underwent during its passing across the continent. In the West, the fish, the water, trees and mist, all have made an impression upon the mind of the Indian artist, and his works show this.

Canada could make her Indian relics a great attraction for tourists from all parts of the world, and combined with her scenic attractions, the country would have something that no other could offer. In this way the work of the Indian artist, and other work on this continent, and men from the United States and many of the European countries have made a deep study of the ancient people of Canada, their lives and their art.

**ASK INVESTIGATION  
ON C.N.R. DEPOSIT**

**Home Bank Depositors of  
Winnipeg Draft Resolution**

Winnipeg, Sept. 28.—A thorough investigation on the part of the authorities of the details of the deposit of \$1,000,000 by the Canadian National Railways in the Home Bank of Canada at Toronto and its withdrawal after the May statement of the bank had been forwarded to the Federal Finance Minister, was requested in a resolution adopted here last night by Winnipeg depositors of the Home Bank, which is at present under suspension.

Another resolution adopted "objected strenuously" to the granting by the courts of any order to wind up the bank's affairs, the depositors be-

lieving that such action would be detrimental to them.

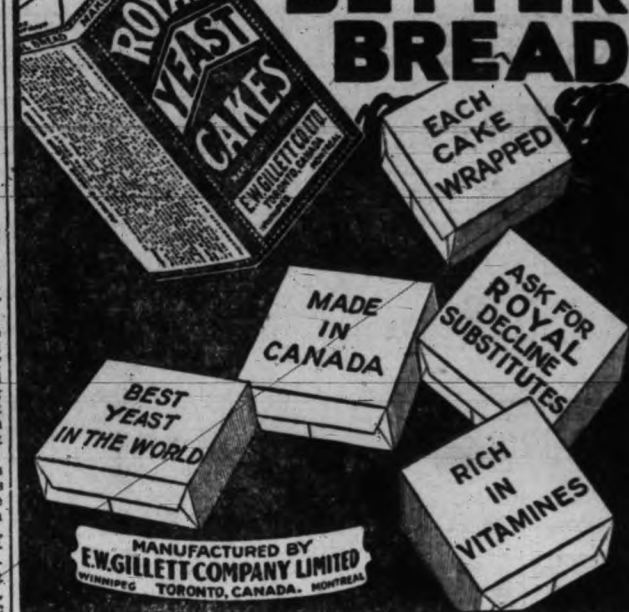

Government protection to depositors in chartered banks was also demanded or that the government start a system of government banks. The Federal Government was also asked to place no hindrance to provincial government savings offices obtaining all the privileges of chartered banks.

IMPROVING THE HOURS  
Nix: "You're a pretty busy man. How it is that you're always so well informed on current events, contemporary literature and nearly everything else?"

Dix: "I always read while waiting for my wife to finish dressing."

New York Sun and Globe.

## YOURS FOR BETTER BREAD
